Wyoming	17	113,318	0	0	0
Total	48	357,700	N/A	N/A	N/A

/a/ Authorized leases, licenses, and permits are shown, along with those logical mining units that were approved as of September 30, 2000. Totals include new actions during the fiscal year as shown in the three right-hand columns. New actions show the number of leases, licenses, and permits authorized and logical mining units approved with an effective date during the fiscal year. Pending preference right lease applications are also shown.

/b/ The lease sale in Montana was completed late in Fiscal Year 1999, but the lease did not become effective until October 1999. Therefore, this sale is shown for Fiscal Year 2000.

/c/ The lease sale in Wyoming was initiated in Fiscal Year 1999, but the lease was not issued until November 1999. Therefore, this sale is shown for Fiscal Year 2000. One lease in Wyoming was segregated into two leases in December 1999, thereby creating another lease without any increase in acreage.
