Amarillo, Texas 79101

**CALCULATION OF EXCESS REFINING CAPACITY**

---

---

FISCAL YEAR: 2015

	REFINER'S FORECAST
Operational Refining Capacity <i>(The total capacity available to refine crude helium to pure, including capacity that could reasonably put into operation for the forecasted fiscal year.)</i>	<b>3.266 Bcf</b>
Planned Demand <i>(The planned demand for helium refining for the forecasted fiscal year.)</i>	<b>2.479 Bcf</b>
Equals: <b>Excess Refining Capacity</b> <i>(The reported total refining capacity of the refiner, minus the volume of refined helium delivery commitments for a particular fiscal year.)</i>	<b>786.5 MMcf</b>
