

## **Request for Motorized Use in Wilderness - Big Springs Allotment**

### Owyhee River Wilderness Area

The Bureau of Land Management, Bruneau Field Office, has received a request for motorized access for range improvement project maintenance and salt placement within the Owyhee River Wilderness. This request is being considered in an environmental assessment as part of the permit renewal process for the Big Springs Allotment. Please copy and paste the following link into your web browser <https://go.usa.gov/xVeJa> to review the Bureau of Land Management's ePlanning website. Review Chapters 1 and 2 of the environmental assessment (Alternative D) for a description of the permittee's application that contain a request for motorized access into wilderness.
