RE; November 2019 Competitive Oil and Gas Lease Sale DOI-BLM-NV-L000-2019-0004-EA

To whom it may concern, I hope to get the comment period reopened so that I can comment on the E.A.

I believe that the BLM isn't giving the public sufficient opportunity to get involved or isn't using that involvement effectively.

Our Mayor, Al Littman of Mesquite, NV was not notified of this... Neither was some of the other major city business owners That have spoken with in the chamber of commerce.

If NEPA has any stipulation's re-guarding the extension of the comment after the fact, Please give us the chance to respond. Also, there was no information in our local news and the Map was designed to confuse and I feel like it was hidden in the Eli district and even more so in the way the map is presented.

Please Help a voice get heard... I certainly have a valid comment if given the chance to comment.
