Jupiter Inlet Lighthouse Outstanding Natural Area to Host Community Listening Session

JUPITER, FL. – The Bureau of Land Management will host its third annual community listening session regarding management of the Jupiter Inlet Lighthouse Outstanding Natural Area (ONA) on Wednesday, May 5, 2021, from 6:30 p.m. until 7:30 p.m.

Due to health concerns, the meeting will be via Zoom. “Maintaining our relationships with our stakeholders, public, and communities is extremely important to the BLM and we want to continue to provide the public an opportunity to make suggestions concerning future management decisions for the ONA,” said Robert Swithers, Southeastern States District Manager.

The virtual listening session will provide an opportunity for businesses, community organizations, and individuals to listen to future planning efforts concerning the Jupiter Inlet Lighthouse ONA. They will also have an opportunity to share their concerns, ideas and/or opportunities regarding management of the Jupiter Inlet Lighthouse ONA. Feedback gathered from the meeting will provide for future outreach, planning, and on-the-ground implementation of the legislation that originally designated the Jupiter Inlet Lighthouse ONA.

You are invited to a Zoom webinar.

When: May 5, 2021 06:00 PM Eastern Time (US and Canada)

Topic: Annual Jupiter ONA Public Workshop

-- BLM --

This year, we invite everyone to reimagine your public lands as we celebrate 75 years of the BLM's stewardship and service to the American people. The BLM manages approximately 245 million acres of public land located primarily in 12 Western states, including Alaska. The BLM also administers 700 million acres of sub-surface mineral estate throughout the nation. The agency's mission is to sustain the health, diversity, and productivity of America's public lands for the use and enjoyment of present and future generations.
