(CRLP) Nick D. Bob L. Brad B. John S.
Kaylyn S. Mike D. Nick H. Mike D.

Roll Call

➤ Noted

Nick D.-Antitrust guidelines apply. If there are any questions, please let me know.

Any update on COVID?

Sam B.-Nothing new for BLM.

Nick D.-Mark can you give us an update for the outage for next week?

Mark M.-Pressure is 1255. We did a second plant startup the cold box tripped on Thursday and began plant startup the next day. Only the cold box and K600 were down. We were flowing into the Kinder Morgan pipeline within 8 hours of startup on Friday.

Nick D.-Any update on when the website might be showing the flow?

Sam B.-We have IT people working on that working on getting the new FlowCal software up and running.

Nick D.-Discussed locked valves, chain locks, management control etc. Hopefully, those things have been discussed further and have been implemented as far as tracking etc.

Upcoming, John you are starting work on Monday?

Ok as far as I know that was his plan.

The last thing I have is administration. We started our third option period of FAR contract, this is a 6 month period. The third and fourth were approved through March 31, 2022. We are operating in that period of the contract right now.

Ok is there anything else?
