BLM to host wild horse and burro event in Windom, Minnesota

MILWAUKEE – The Bureau of Land Management is holding a wild horse and burro placement event July 9-10, offering approximately 60 excess animals gathered from western rangelands at the Windom Arena, 1480 8th Avenue, Windom, Minnesota.

“Placement events like this one are important in promoting healthy horses on healthy rangelands out west,” said Acting Northeastern States District Manager Stephanie Carman. “Our goal is to find good homes for these animals.”

Adoptions and sales will be held by appointment only from 8 a.m. – 5 p.m. CST on Friday, July 9 and from 8 a.m. – 1 p.m. CST on Saturday, July 10. On both days, placements will occur in one-hour increments (five appointments per hour). Appointments can be made via email at BLM_ES_NSDO_WHB@blm.gov. The BLM requests all potential buyers and adopters to disclose their top three preferred times slots when making appointments.

The BLM’s Adoption Incentive Program was designed to help improve rangeland health in overpopulated herd management areas in the western states and to save taxpayer costs for animals held at off-range holding facilities. Through this program, qualified adopters are eligible to receive \$500 within 60 days of adoption and \$500 upon title issuance for an untrained wild horse or burro. The incentive is available for all untrained animals eligible for adoption with an adoption fee of \$25 per animal.

Animals that are over ten years old or younger animals who were unsuccessfully adopted out to new homes three times may be sold. BLM staff will be available to identify these animals to interested, qualified buyers. Purchasers will receive immediate ownership of the animals.

-BLM-

This year, we invite everyone to reimagine your public lands as we celebrate 75 years of the BLM's stewardship and service to the American people. The BLM manages approximately 245 million acres of public land located primarily in 12 Western states, including Alaska. The BLM also administers 700 million acres of sub-surface mineral estate throughout the nation. The agency's mission is to sustain the health, diversity, and productivity of America's public lands for the use and enjoyment of present and future generations.
