

## EXHIBIT C

### Road Maintenance Specifications

#### GENERAL

**3001** - The Purchaser shall be required to maintain all roads as shown on the Exhibit A map of this contract in accordance with Sections 3000, 3100, 3200, and 3400 of the exhibit.

**3002** - The Purchaser shall maintain the cross section of existing dirt or graveled roads to the existing geometric standards. Any roads required to be constructed, improved, or renovated under terms of this contract shall be maintained to the standards required in Exhibit C of this contract.

**3003** - The minimum required maintenance on any roads shall include the provisions specified in Sub-sections 3101, 3104, and 3105.

**3004** - The Purchaser shall be responsible for providing timely maintenance and cleanup on any roads with logging units substantially completed prior to moving operations to other roads. Release of maintenance requirements may be granted, upon written request, when the conditions specified in Section 3300 and 4300 are met satisfactorily.

#### OPERATIONAL MAINTENANCE

**3101** - The Purchaser shall blade and shape the road surface and shoulders with a motor patrol grader. Banks shall not be undercut. Back blading with tractors or similar equipment will be allowed only around landings and other areas when approved by the Authorized Officer.

**3103** - The Purchaser shall maintain established berms and place additional berms using adjacent material where needed to protect fills as directed by the Authorized Office.

**3104** - The Purchaser shall perform other road cleanup including removal of debris, fallen timber, bank slough, and slides which can practicably be accomplished by a motor patrol grader, rubber tired front end bucket loader, rubber tired backhoe or comparable equipment, and by the use of hand tools.

**3105** - The Purchaser shall be responsible for maintaining normal flow in drainage structures. This includes cleaning out drainage ditches, catch basins, clearing pipe inverts of sediment and other debris lodged in the barrel of the pipe, and maintaining water dips and water bars using equipment specified in Sub-section 3104 and other culvert cleaning flushing equipment.

## SEASONAL MAINTENANCE

**3201** - The Purchaser shall perform preventive maintenance at the end of Purchaser's hauling each season and during non-hauling periods which occur between other operations on the contract area. This includes cross ditching, removing ruts or other surface irregularities and all other requirements specified in Section 3100.

**3202** - The Purchaser shall perform and complete maintenance, specified in Section 3000, 3100, and 3200 on all roads maintained by him, prior to October 1 each year, except as specified in Sub-section 3203, after initial commencement of construction or logging operations. Thereafter all roads shall have continuous preventive maintenance and road cleanup until suspension of seasonal operations. This includes all roads used and not used during the preceding operating seasons.

**3203** - The Purchaser shall complete road clean up and maintenance, as specified in Section 3100, at the completion of logging operations on the roads located in an area separate from the area where logging activities will resume.

## FINAL MAINTENANCE

**3301** - The Purchaser shall complete final maintenance and/or damage repair on all roads used under terms of this contract within 30 calendar days following the expiration Purchaser's right to cut and remove timber (Sec. 4) and in accordance with Sec. 16(b) of this contract. This work shall include any maintenance and/or damage repairs specified in Sections 3000, 3100, and shall be executed in accordance with Subsection 3002, and shall be executed in accordance with Subsection 3302 of this Section.

**3302** - The Purchaser shall perform final road maintenance only when weather or soil moisture conditions are suitable for normal maintenance equipment operations as determined by the Authorized Office.

If final maintenance is delayed after the date required in Subsection 3301 of this contract by adverse soil moisture or unsuitable equipment operating conditions, the Purchaser will be notified by the Authorized Officer when soil moisture and equipment operating conditions are suitable. The Purchaser shall then be required to complete final maintenance within 30 days.
