

Input for the South Cow Mountain OHV Management Area Implementation Plan

The BLM Ukiah Field Office is in the initial public engagement phase for the South Cow Mountain OHV Management Area Implementation Plan.

The public is invited to provide input to the BLM that will help identify new trails and redesign routes for better connectivity, find safer solutions for shared trails, provide improved public access, and offer a more enjoyable experience. Some of the existing trails are too steep for even the most equipped off-highway vehicles and experienced riders; causing erosion that requires substantial route maintenance. Recreation area users have requested more family-friendly features, such as a training area for kids, additional campgrounds or RV parking and restrooms. The BLM staff will also use this planning effort to help minimize impacts to sensitive plants and animals, cultural sites and slow the spread of invasive species.

How to provide your input:

Please provide your input by **February 22, 2022**.
