Subject: Craters Monument Plan Amendment ROD

Leah, June,

I'm sending this as a heads-up of a potential delay in issuing the Craters ROD and things I've put in motion resulting from WO advice.

Our national P&EC call today included a discussion of IM 2017-086 that directs the BLM, prior to issuing a record of decision (ROD) or any other final decision with nationwide, regional, or statewide impact, to submit a report for review through DTS and approval by the Deputy Secretary (James Cason). We heard that 30 days would be an optimistic time frame to expect for this process.

Heather Bernier, acting WO-210 Division Chief recommended that I get the Craters report uploaded into DTS as soon as possible. We had this ready to go and gave it to Ken Frederick today to upload. As per Heather's instruction, we are routing it to 210 first so that they can help carry it through the review process.

Heather also said we should keep in mind, although she hasn't heard anything specific about it, Craters is on the Secretary's monument review list, and that this could be cause for delay of a ROD.

I do not know if Greg Russell or Luke Hajek at DOJ know of the new IM requirement for Draft Decision reviews; they should be aware of Craters being on the monument review list. (b)(5) DPP

Let me know your advice/direction if alerting Tim and Pete, solicitors, and DOJ is necessary at this time.

Eric
