San Luis Valley Field Office drops fire restrictions

MONTE VISTA, COLO - The Bureau of Land Management's (BLM) San Luis Valley Field Office has lifted fire restrictions. "Recent rains have improved fuel moisture and reduced the risk of wildfire ignition and spread, allowing fire restrictions to be lifted," said San Luis Valley Field Manager Melissa Garcia. "Although restrictions are no longer in effect, visitors should always be cautious when using fire."

While seasonal restrictions are no longer in effect, there are year-round wildfire prevention restrictions that always apply on BLM-administered public lands in Colorado. The following are prohibited:

- Leaving a fire unattended or unextinguished.
- Possession, discharge, or use of any fireworks.
- Discharge of a firearm using incendiary or tracer ammunition.
- Burning, igniting, or causing to burn any tire, wire, magnesium, or any other hazardous or explosive material. Operation of any off-road vehicle on public lands without a properly installed spark arrester pursuant to 43 CFR 8343.1 (c).

For information about BLM Colorado Fire restrictions visit [BLM Colorado Fire Restrictions](#). For general information about fire restrictions on all lands in Colorado, visit [Colorado Emergency Management](#).

-BLM-

The BLM manages more than 245 million acres of public land located primarily in 12 western states, including Alaska, on behalf of the American people. The BLM also administers 700 million acres of sub-surface mineral estate throughout the nation. Our mission is to sustain the health, diversity, and productivity of America's public lands for the use and enjoyment of present and future generations.
