Contour interval change
Stream, lake (perennial; intermittent
Rapids; large and small; falls; large and small
Area to be submerged; marsh, swamp
Land subject to controlled inundation
Special area boundary
Recreation area boundary
National trail; back country; scenic byway

NOTE TO MAP USERS

The surface and minerals management status overprints are published as accurately as possible; however, inherent limitations in the mapping methods and sources, may have been shown as patented lands due to the lack of information available to BLM with respect to the nature of acquisition. Tracts less than 40 acres in size may not be shown on these maps. For the most accurate and current records in the respective offices of the Bureau of Land Management or other responsible Federal agencies should be checked for up-to-date status on any tract of land. Use of the information on this map for other than general purposes of the respective Bureau of Land Management offices from which the maps were obtained

PUBLIC ACCESS

Roads crossing public lands may be travelled by the public unless closed by the managing agency. Use of roads crossing private lands is by permission only; private lands may not have public access. Permission is required from the private landowner to cross private land, unless access is provided by a Federal, State, or County road or a BLM road with legal access.
