These routes have not been field verified for use and are not recommended for most routes while others may be suitable for OHV use. Conditions may change, so please inquire at the Kanab Field Office for current driving conditions. In general, all routes on this map have route number signs on the ground. The group of route signs may not always indicate a route direction or a route branching. If you have any questions or concerns regarding the use of BLM-managed lands, please contact the Kanab Field Office or your local BLM district office.
