

[Mining and Reclamation Plan of Operations Submittal Review]

To BLM Reviewers:

Please complete the MSWord comment matrix (a template is provided at the end of these instructions) by saving this file with a new file name including your last name (for example, name your comment matrix “Cmt-Matrix_SDNM-RMPA-Monger.doc”), and then fill out your comments in the document.

The deadline for comments is [INSERT DATE AND TIME].

How to Provide Valuable Feedback

Commenting:

For each comment, please fill in the following information under the appropriate column heading in the matrix:

- ✓ Page and line number on which you are commenting. **The page and line numbers MUST be used!**
- ✓ Your comments:
 - Your comments should be specific and provide exact changes to the text. Please be unambiguous, clear, and directive, with exact, proposed wording changes. Ambiguous comments, such as “What?,” “Poor,” or “Is this right?,” are not clear, so please be specific.
 - If you have the same comment more than once, please copy and paste your comment to a new row in the matrix and provide the specific page number, instead of just referring back to a previous comment. This will help us to more efficiently address the comments and make any necessary changes.
 - If you need additional space for comments, click in the table cell where you would like to comment, select the *Table* menu, *Insert*, and either *Rows Above* or *Rows Below*.

Comments on [Kirkland Mining and Reclamation Plan of Operations]

Cmt #	Page #	Line #	BLM Commentor	Comment	Response
1.	16	27	Holden	There is an existing gate at this location. Is a different gate planned? As an active grazing lease, the gate can't be left open, a cattle guard might be more appropriate.	
2.	20	6	Holden	The well indicated is located at the Single Six ranch, private land held by the Hamptons, and the well is in their name. Is there a written agreement guaranteeing this well use?	
3.	9	5	Holden	This is an active grazing allotment. Livestock are present in this area during the fall and winter months. An open pit is a hazard to livestock and will need some method of preventing livestock access.
