**Subject:** Skull Valley Community Meeting

Rem-

We have spoken internally about addressing the community. We feel that we should continue to focus on our development and testing program, and not address the community. At this point it wouldn't be effective for us to write a statement or be a part of this meeting nothing we say is going to change their mind.

I would like to set up a meeting with you on October 8th in morning if possible. I would like to discuss how you plan to address the group and educate them on the mining laws. Please let me know if you available on October 8th and a time. Thanks very much for your continued efforts.

Best Regards,
