Mining Company

Hi Rem,

Hope your well, I wanted to check in before the meeting tomorrow, I have been getting letter's that Helen Harrington has written from some of my supporters. I have to say more the same nonsense!!

However; she seems to be under the impression that their is going to be some sort of **"field trip" to the mine. KMC will not allow that at this time; it safety issue first and foremost.**

Can you please confirm that BLM is not arranging a Field Trip, I didn't have Adam email and I believe it is he who she is corresponding with. Please forward this to him and confirm with me this is not the case.

As for the meting we will not be sending any representatives from KMC after careful consideration we feel, and our experts feel the statement you supplied to the Kirkland Forum website is sufficient enough.

We will have local supporters at the meeting to speak up on our behalf which we hope will make a difference in the meeting not being so one sided.

Good Luck tomorrow; Please confirm the above concern.

Thank you for your continued support and consideration.

Best Regards,

Areta Zouvas

Areta: I'll be in the office and mostly available Oct 6-9. If you'd like to meet then, let me know what time works for you. As far as the Oct 21 Skull Valley meeting, I believe that Supervisor Simmons is trying to keep his Sept 24 annual town hall meeting in Skull Valley from being taken over by the mining issue, so he scheduled a separate meeting.

It sounds like the goal of the Oct 21 meeting is communication, to let Skull valley residents know about the status of the stockpile/mine, and to answer questions. I'm sure what I'll need to do is provide a briefing on mining law and regulation, and state how your exploratory mining notice and operation comply with federal law, regulation, and policy.

Please be aware that you are under no pressure from me to participate in this community meeting. I just want you to be aware of it.

Rem,

I will be in town during that time period, perhaps you and I should meet prior to discuss. I'm not clear as to why they need to meet with you? Our focus is in the development and testing stage, which we are well within our right to conduct. That is it bottom line.

As we have learned from the past actions of this group nothing we say is going to make them happy. They still seem hostile, and unwilling to give us a fair shot of communicating or bridging the gap of their misunderstanding of the facts!!!

KMC would like to have the opportunity to start building relationships with the local's. I have talked with a few that are supportive about hosting a luncheon while I'm there, and plan to do so.

However, being bombarded by hostiles at a planned meeting with KMC as the topic, that has no point to it, does not sound appealing. I do not want to see you get side swiped again when there is nothing to share with them at this time.

At this point we will need to discuss with our legal counsel to decide if we should put together a statement or not. Please let me know how you would like to handle, and if we can meet; I will be in Phoenix from October 6th to 10th. Then headed to Prescott from the 10th to November 14th.

It's important to have a clear understanding as to what this meeting is about? and what do they hope to accomplish with this meeting?

Areta: FYI, County Supervisor Rowle Simmons asked me to participate in a 10/21 meeting in Skull Valley regarding the mining. I expect he may invite you to participate, too.

Hello Allison,

I wanted to let you know that Ian Bingham, ADEQ Ombudsman, called and let us know he was unaware of the change in approach by the Kirkland Mining Company. He also let us know that no permits are required by ADEQ in terms of them boring holes. A permit would only be required by ADEQ if it were a full crushing operation.

Additionally, Rowle asked me to send any correspondence I had that may differ than what has been circulated. It appears we all have the same information that Rem sent out to those that were asking for updates.

Thank you,

Barbara Fox-Thomas
Administrative Assistant to District 1
Supervisor Rowle P. Simmons
