No warranty is made by the Bureau of Land Management as to the accuracy, reliability, or completeness of these data for individual or aggregate use with other data. Original data were compiled from various sources. This information may not meet National Map Accuracy Standards. This product was developed through digital means and may be updated without notification.

¹Includes only those projects that have been officially entered into BLM's LR2000 land recordation system. That includes projects that are wholly on federal lands or partially on federal lands via a "connected action". Any project wholly on private lands is excluded, with the possible exception of split estates. There are no current federal connections with the Mist Gas Field or the Coos Basin Area of Mutual Interest.
