- 3) *Explain if and how the acquisition will facilitate management efficiency of Federal lands or of a "federally designated area."*
- 4) Acquisition of the property is consistent with the [*name of plan*] approved Federal land-use plan in force for the area within which the property is located.

- 6) The initial assessment of the information in this nomination package and received from the land owner, indicate the property interests to be acquired are sufficient to satisfy the Federal acquisition objectives and, to the best of my knowledge, there are no known legal, physical, or financial issues that would prevent or unnecessarily delay Federal acquisition and management of the property.
- 7) Based on the initial site inspection and interview with the owner,
 - a. The initial assessment of potential liabilities presented in this nomination package has been verified and is accurate to the best of my knowledge;
 - b. I concur that the method employed by the nominating entity to initially assess those liabilities is appropriate; and
 - c. The likely remediation that will be needed and method of accomplishing that remediation as described in the nomination narrative appears accurate.

[If the Agency disagrees with any of the above information in the nomination package, or has additional input regarding the potential liabilities, that information should be provided under #7.]

- 10) Please include one of the following regarding the owner's asking price: "The agency has reviewed the owner's asking price and [*select one: (1) consulted with the Office of Valuation Services (OVS), (2) consulted with the Forest Service Appraisal Team, or (3) utilized agency staff familiar with market values in the area*] and determined that a reasonable value range based on available market evidence is between \$_____ and \$_____. The agency further confirms the asking price is within the reasonable value range." [*If consultation with the agency appraisal group or review of market evidence by qualified agency staff does not result in a value range, the response should explain the market evidence that led to a determination that the asking price is reasonable. If the original asking price is not reasonable, the agency may discuss its market research with the owner to determine if the owner is willing to reduce the asking price to be within the reasonable value range, or to a price that would be determined reasonable based on the market evidence. Under this circumstance if the owner is unwilling to adjust the asking price, the nomination shall not move forward because the agency cannot confirm that the asking price is reasonable.*]
- 11) The agency has attached a cost estimate sheet which estimates the total acquisition cost, including the asking price and necessary expenses as \$_____. (See Exhibit 6 and the Excel spreadsheet form under "Call for Round 16 Nominations" on the SNPLMA website.)
