BLM Utah Travel Management Areas

This map depicts Travel Management Areas (TMA) in Utah. TMAs are an administrative planning tool used to provide a strategic approach to inventory, planning, management, monitoring, and administration of the travel network, transportation system, and OHV use on BLM managed public lands. TMAs are not Resource Management Plan OHV Area designation decisions, rather they are delineations of implementation level planning boundaries that can be adjusted as needed to accommodate planning needs. This map includes but does not differentiate TMAs where travel planning has been completed, is ongoing, or has yet to be initiated. This map is not intended to display a schedule, set prioritization, or infer commitment for travel planning in these TMAs.
