WELCOME TO MCKENZIE RIVER CORRIDOR!

River visitors are rewarded with ample recreation in this cool, lush corridor, home to diverse fish and wildlife and inspiring scenic beauty. Prized fish and challenging cold-water rapids will test the skills of fisherman, rafters, and kayakers alike. In the air, osprey and other birds of prey scan the waters looking for their meal of the day. On land, deer meander in search of cover and forage with abundant options from which to choose. Active sport or quiet contemplation are both a natural fit among the flowing waters, cathedral-like forest, and rounded boulders positioned along the river like sentries on watch.
