

**Bureau of Land Management  
Northwest Oregon District  
Summer 2020 Quarterly Planning Update**

The Bureau of Land Management (BLM) manages more than 245 million acres of public land located primarily in 12 Western states, including Alaska. The BLM also administers 700 million acres of subsurface mineral estate throughout the nation. The agency's mission is to sustain the health, diversity, and productivity of America's public lands for the use and enjoyment of present and future generations. Diverse activities authorized on these lands generated \$96 billion in sales of goods and services throughout the American economy in fiscal year 2017. These activities supported more than 468,000 jobs.

United States Department of the Interior

BUREAU OF LAND MANAGEMENT  
Northwest Oregon District Office  
1717 Fabry Road SE, Salem, Oregon 97306  
<http://www.blm.gov>

Welcome to the Summer 2020 edition of the Bureau of Land Management (BLM) Northwest Oregon District's quarterly Planning Update newsletter. The purpose of our publication is to provide you with information on proposed activities on lands administered by the BLM within the Northwest Oregon District

I am seeking comments and ideas on the attached quarterly Planning Update from those who may be affected by our management programs. My intent is to increase the public's awareness of BLM issues, activities, opportunities, and to get your feedback as to whether we missed any issues as the District moves forward with project planning. Your comments and suggestions are appreciated and are very important to us. They help us make informed decisions, take sound land management actions, and improve our projects. The Planning Update newsletter includes projects in the National Environmental Planning Act (NEPA) process and the status of the current Fiscal Year's timber sale program.

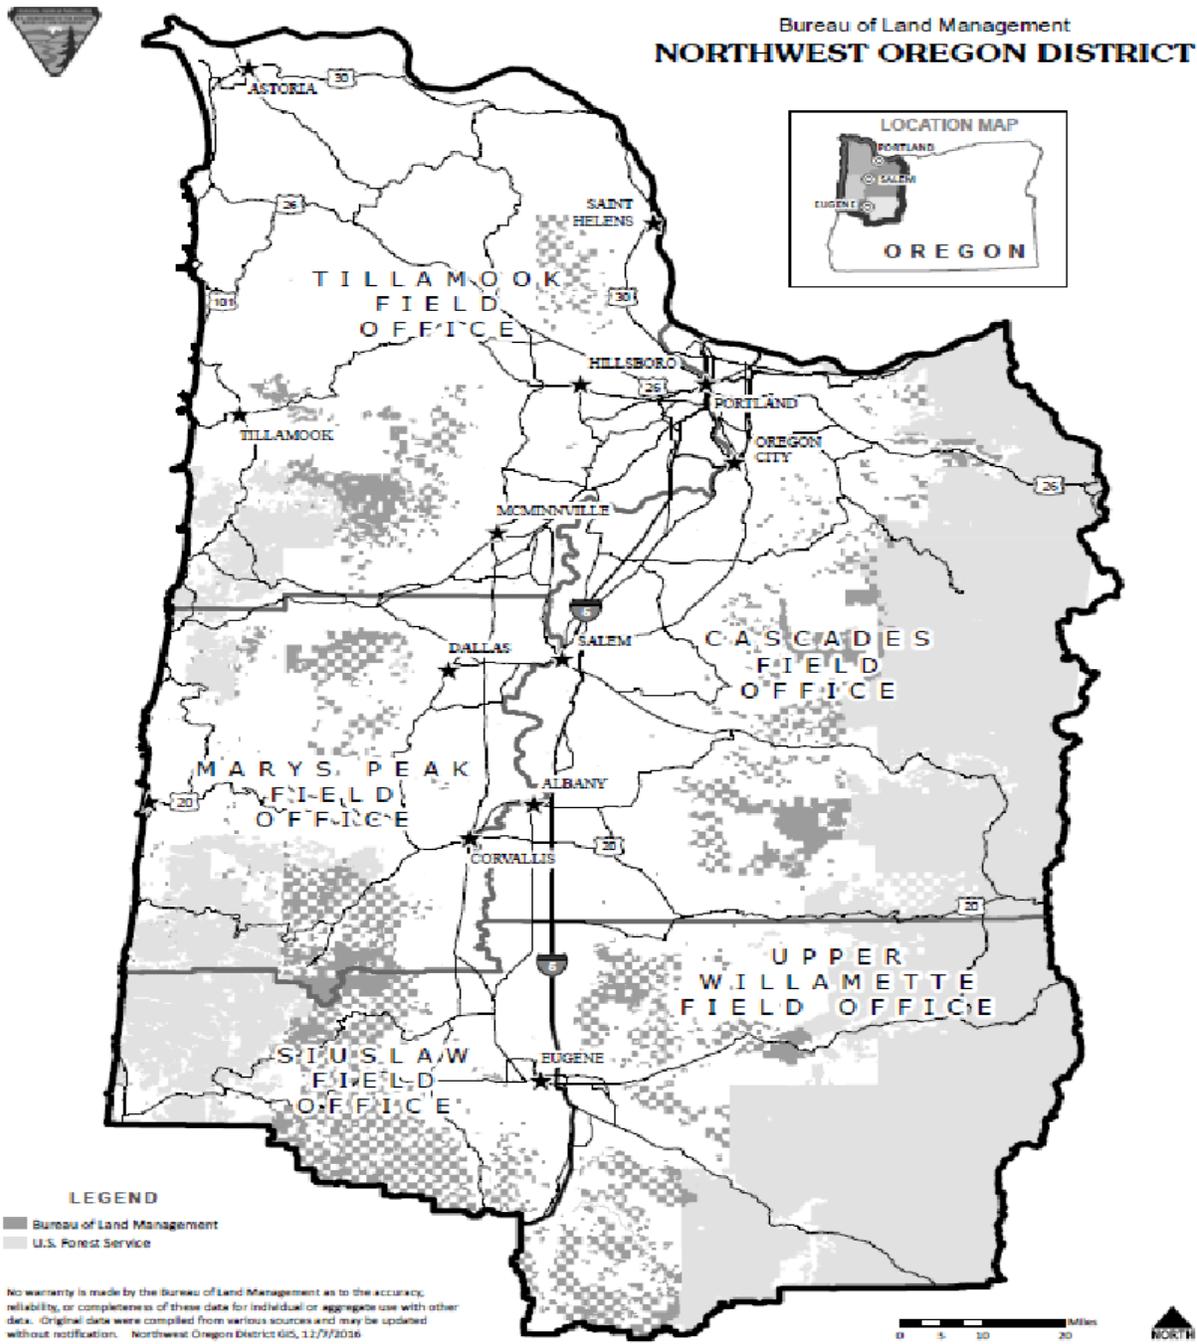

The District posts all NEPA documents and final decisions on the BLM National NEPA register (ePlanning). Please see the first section of this publication for more information about the ePlanning website.

We welcome your comments for our consideration, as they may influence the final decision on these projects. Thank you for your continued interest!

Sincerely,

Digitally signed by  
DAVID HOWELL  
Date: 2020.06.24

David O. Howell  
Acting District Manager, Northwest Oregon

## **Projects Described in this Document**

Tables 1 through 6, below, describe the planning status of current projects. Projects are organized by project type, project name/description, location, planning status, and contact person. Projects started and completed between editions of this document have gone through the full analysis process. The BLM notifies the public of these projects through this Document; mailings and emails to contacts on the Northwest Oregon District Field Offices' National Environmental Policy Act (NEPA) notification lists; newspaper legal notices; and postings on the BLM National NEPA register website (ePlanning).

### **ePlanning Register Website**

To access this site, go to: <https://eplanning.blm.gov/eplanning-ui/home>. Under “Find a Project” you can search by “State” (*Oregon/Washington*), Office (select *NW Oregon District Office* for Northwest Oregon District projects, select *Cascades FO* (Field Office) for Cascades projects, select *Marys Peak FO* for Marys Peak projects, select *Siuslaw FO* for Siuslaw projects, select *Tillamook FO* for Tillamook projects, and select *Upper Willamette FO* for Upper Willamette projects). You can also search by type of document (*Categorical Exclusions, Determination of NEPA Adequacy, Environmental Assessment, Environmental Impact Statement*), resource program, and fiscal year (October to September) the project was inputted into ePlanning. You do not need to fill out all of these options to search. Check the box next to “Show only open participation periods” to see projects with open comment periods. Then click the **Search** button and your results will be shown below. You can also search by entering the NEPA number or exact project name (under the “Name/Description of Project” column in Tables 1-6 below). Many projects in Tables 1-6 of this document are hyperlinked to ePlanning. If you have an electronic copy of the Planning Update, you may click on the project name in Tables 1 to 6 to access the ePlanning project website. Tables 7 and 8 describe the Fiscal Year 2020 timber sales by Sustained Yield Unit (SYU).

***\*\*\* Continuing our service to the public while doing our part to address COVID-19 is very important. The health and safety of staff and visitors in these facilities is our number one priority. Following guidance from the CDC and recommendations from state and local public health authorities, the BLM is temporarily restricting in-person public access to some offices in Oregon.***

***Please check with individual offices for customer service availability by phone before arriving at the office***

### ***Acronyms and Definitions***

***Categorical Exclusion (CX):*** A category of actions (identified in agency guidance) that do not have a significant effect on the quality of the human environment and for which neither an environmental assessment nor an environmental impact statement is required.

***Decision Record (DR):*** The BLM decision document associated with an EA that describes the action to be taken when the analysis supports a finding of no significant impact.

***Determination of NEPA Adequacy (DNA):*** An interim step in the BLM’s internal analysis process that concludes that a proposed action is adequately analyzed in an existing NEPA document (an EIS or EA). Where applicable, the determination also addresses conformance with an approved land use plan.

***District Designated Reserve (DDR):*** One of the federal land use allocations set forth in the 2016 Northwestern and Coastal Oregon Resource Management Plan (RMP). The objective of this land use allocation is to maintain the values and resources for which the BLM has reserved these areas from sustained-yield harvest. These lands include constructed facilities and infrastructure, such as seed orchards, roads, communication sites, quarries, buildings, and maintenance yards, as well as Areas of Critical Environmental Concern (ACEC), Timber Production Capabilities Classification (TPCC) lands, and Lands Managed for their Wilderness Characteristics (LWC).

***Environmental Assessment (EA):*** A public document prepared pursuant to the National Environmental Policy Act (NEPA) that provides sufficient evidence and analysis to determine whether a federal undertaking would significantly affect the quality of the human environment. If the answer is no, the agency issues a finding of no significant impact (FONSI), otherwise, the agency will prepare an Environmental Impact Statement (EIS).

***Environmental Impact Statement (EIS):*** A document mandated by NEPA to assess the potential impacts of federal agency actions “significantly affecting the quality of the human environment.”

***Finding of No Significant Impact (FONSI):*** A finding that explains how an action will not have a significant effect on the quality of the human environment pursuant to NEPA, and, therefore, an environmental impact statement will not be required.

***FY:*** Fiscal Year.

***Harvest Land Base (HLB):*** One of the federal land use allocations set forth in the Northwestern and Coastal Oregon RMP. Those lands on which the determination and declaration of the Annual Productive Capacity/Allowable Sale Quantity (ASQ) is based. The ASQ is based on implementing a set of specific timber management activities and assumes those practices will be repeated over time and results in a sustainable harvest level. This includes the Moderate Intensity Timber Area (MITA) and Low Intensity Timber Area (LITA).

***Land Use Allocation (LUA):*** A designation defining uses that are allowed, restricted, or prohibited for a particular area of land. The LUAs are Congressionally Reserved Lands and

National Conservation Lands, District-Designated Reserve, Harvest Land Base, Late-Successional Reserve, and Riparian Reserve.

***Late-Successional Reserves (LSR):*** One of the federal land use allocations set forth in the Northwestern and Coastal Oregon RMP land use allocations. The Northwestern and Coastal Oregon RMP designated lands to a land use allocation of the same name, but the objectives of the LSR are to manage habitat for the northern spotted owl and marbled murrelet.

***Low Intensity Timber Area (LITA):*** A sub-allocation of the Harvest Land Base land use allocation. See *Harvest Land Base*.

***MBF:*** Thousand board feet.

***Moderate Intensity Timber Area (MITA):*** A sub-allocation of the Harvest Land Base land use allocation. See *Harvest Land Base*.

***National Environmental Policy Act (NEPA):*** A federal law that requires agencies to determine if their proposed actions have significant environmental effects. The NEPA procedures ensure that environmental information is available to the public, and that the public has an opportunity to participate in the process before federal agency decisions are made and before actions are taken that may have a significant effect on the environment. The NEPA process provides an understanding of environmental consequences of the proposed actions to help federal agency officials make decisions.

***Regeneration harvest:*** Any removal of trees intended to assist regeneration already present or to make regeneration possible.

***Riparian Reserve (RR):*** One of the federal land use allocations set forth in the 2016 Northwestern and Coastal Oregon RMP. Lands within the Riparian Reserve were designated to manage for ESA-listed fish species and their habitats and water quality.

***SBA:*** Small Business Administration.

***Sustained Yield Unit (SYU):*** An administrative unit for which an allowable sale quantity is calculated. In western Oregon, the six sustained yield units correspond to the Coos Bay; Eugene; Medford, Roseburg, and Salem Districts, and the western portion of the Klamath Falls Field Office. The consolidation of the Salem and Eugene Districts did not affect sustained yield units.

***Thinning - Commercial Thinning/Density Management:*** Commercial thinning is stand thinning in which some or all of the cut trees are removed from the stand for timber. Density Management is the cutting of trees for the primary purpose of widening their spacing so that growth of remaining trees can be accelerated. Density management harvest can also be used to improve forest health, to open the forest canopy, or to accelerate the attainment of old growth characteristics if maintenance or restoration of biological diversity is the objective. Specific objectives would vary by land use allocation.

**Table 1: Cascades Field Office Proposed Projects**

<i>Name/Description of Project</i>	<i>Location</i>	<i>Planning Status</i>	<i>Contact</i>
<b>Vegetation Management Actions</b>			
<b>FY 2020 Timber Sales:</b> The current status of Cascades Field Office timber sales is described in Table 7: Gallon House, Cemetery Road, and Carolyn’s Cranes.			
<b><u>Bi-County Timber Management Project (DOI-BLM-ORWA-N010-2017-0008-EA):</u></b> This project proposes thinning and regeneration harvest on approximately 580 acres under multiple timber sales within the Harvest Land Base-MITA land use allocation.	T.6S. R.1E., sections 13, 25; T.7S., R.2E., sections 9, 15, 23, 27, 33. Abiqua-Pudding Creek, Butte-Pudding Creek, and Rock Creek Watersheds, Marion and Clackamas Counties	EA Completed August 2019. FONSI signed June 26, 2019. Decision Record (DR) on Sweet Pea Timber Sale signed August 7, 2019. DR on Gallon House Timber Sale signed November 8, 2019.	Tanner Hartman <a href="mailto:thartman@blm.gov">thartman@blm.gov</a> (503) 315-5966
<b><u>Fishermen’s Bend Vegetation Management Plan EA (DOI-BLM-ORWA-N010-2017-0017-EA):</u></b> This project proposes to outline the reforestation techniques used to revegetate the recreation site post emergency harvest of the dead and dying conifers.	T.9S., R.2E., sections 25 and 26, Fishermen's Bend Recreation Site, approximately 2 miles east of Mill City in Marion County, Oregon	Ongoing - EA available for public review June-July 2020.	Kenny Ruzicka <a href="mailto:kruzicka@blm.gov">kruzicka@blm.gov</a> (503) 375-5713
<b><u>Green Peter Timber Management Project (DOI-BLM-ORWA-N010-2019-0015-EA):</u></b> This project proposes commercial thinning and regeneration harvest on approximately 430 acres under multiple timber sales within the HLB-MITA land use allocation. Approximately 108 acres of the proposed project is located within the Green Peter Peninsula Extensive Recreation Management Area	T.12S., R.3E., section 19, 20, 21, and 30. Green Peter Lake-Middle Santiam River 5th Field Watershed, Linn County	Ongoing - EA and unsigned FONSI for public review May 15 to June 15, 2020.	Tanner Hartman <a href="mailto:thartman@blm.gov">thartman@blm.gov</a> (503) 315-5966
<b><u>Unger Dog Timber Management Project (DOI-BLM-ORWA-N010-2020-0004-CX)</u></b> Project is to maintain and improve Horning Seed Orchard operations for seed generation through regeneration harvest and commercial thinning (non-ASQ). Entire project area is District-Designated Reserve land use allocation.	T.4S., R.3E., sections 13 and 23 approximately 40 miles northeast of Salem, Clackamas County, Oregon	Ongoing - CX to be completed Summer in 2020.	Charles Brown <a href="mailto:cwbrown@blm.gov">cwbrown@blm.gov</a> (503) 375-5605
<b><u>North Fork Clackamas II Restoration Project (DOI-BLM-ORWA-N010-2020-0011-DNA)</u></b> Pursuant to the three-year Cooperative Agreement (signed in 2018) with Clackamas River Basin Council (CRBC), the purpose of which is to restore floodplain, side-channel and river habitats on 0.80 mile of North Fork Clackamas River, CRBC needed to do vegetation maintenance to ensure that a recently planted unit did not get overrun by invasive species in a 1.25 acre area.	T.4S., R.5E., section 7, Clackamas County, Oregon	Complete - DNA and Decision signed May 6, 2020	Mike Mathews <a href="mailto:mmathews@blm.gov">mmathews@blm.gov</a> (503) 375-5646

<i>Name/Description of Project</i>	<i>Location</i>	<i>Planning Status</i>	<i>Contact</i>
<p><b><u>2020 Cascades Field Office Young Stand Treatments</u></b>  <b>(DOI-BLM-ORWA-N010-2020-0012-CX)</b>                      BLM will implement its annual young stand treatments program within the Harvest Land Base and Riparian Reserve Land Use Allocations (LUA). Pre-commercial thinning (PCT) manually reduces stem density by cutting and leaving small trees in the stand with the intention of providing more resources to residual trees. In general, the BLM carries out PCT when trees are 10 to 15 feet tall and 10 to 15 years old, about 8 inches in diameter. For this Proposed Action, stands are between 10 and 40 years old with the older stands still being less than 10 inches in diameter due to high elevations.</p>	Multiple locations within the Cascades resource area.	Complete -Decision was signed on May 20, 2020	Kenny Ruzicka <a href="mailto:kruzicka@blm.gov">kruzicka@blm.gov</a> (503) 375-5713
<p><b><u>Mr. Walton’s Opus Timber Management Project</u></b>  <b>(DOI-BLM-ORWA-N010-2020-0013-EA)</b>                      This project proposes thinning and regeneration harvest on approximately 786 acres under multiple timber sales within the Harvest Land Base-MITA land use allocation (LUA). Also proposed are treatments within an 8-acre Riparian Reserve LUA to improve fish and aquatic habitat.</p>	T.4S., R.4E., Sections 23 and 35; T.5S., R.4E., sections 2 and 3; T.5S., R.4E., sections 3, 5, 9 and 10; T.5S., R.4E., sections 7, 9, 10 and 17, Clackamas County, Oregon	Internal scoping underway. External scoping scheduled for mid-June 2020.	Tanner Hartman <a href="mailto:thartman@blm.gov">thartman@blm.gov</a> (503) 315-5966
<b>Recreation Actions</b>			
<p><b><u>Wildwood Recreation Area Management Plan</u></b>  <b>(DOI-BLM-ORWA-N010-2016-0003-EA):</b> The purpose of the plan is to analyze how the site is currently serving regional recreation needs, including overnight use and environmental education.</p>	T.2S., R.7E., section 31. Clackamas County	Ongoing. Revising EA and unsigned FONSI documents. Public review of EA completed January 15, 2020.	Dan Davis (503) 315-5935
<p><b><u>Mt Hood Wild and Scenic Rivers Comprehensive River Management Plan</u></b>  <b>(DOI-BLM-ORWA-N010-2019-0018-EA):</b> BLM is participating as a cooperating agency with the US Forest Service in the development of a Comprehensive River Management Plan for nine Wild and Scenic Rivers within the Mt. Hood National Forest. Four of the rivers are either on, adjacent to, or in close proximity to lands that BLM manages. The South Fork Clackamas River corridor is the only river corridor that includes both National Forest System and BLM-administered lands.</p>	Nine rivers within the Mt. Hood Area	Scoping completed August 26, 2019. Ongoing.	Whitney Wirthlin <a href="mailto:wwirthlin@blm.gov">wwirthlin@blm.gov</a> (503) 375-5612
<b>Miscellaneous Land Use Requests</b>			
<p><b><u>Process Requests</u></b> (EA/CX/DNA): For various land uses such as rights-of-way, tail-holds, and special use permits</p>	Cascades Field Office-wide	Ongoing	Whitney Wirthlin <a href="mailto:wwirthlin@blm.gov">wwirthlin@blm.gov</a> (503) 375-5612

**Northwest Oregon District Planning Update – Summer 2020**

<i>Name/Description of Project</i>	<i>Location</i>	<i>Planning Status</i>	<i>Contact</i>
<b><u>Clackamas River at North Fork Reservoir Restoration Project (DOI-BLM-ORWA-N010-2020-0005-DNA)</u></b> : Oregon Wildlife Foundation and Portland General Electric are proposing to construct large wood habitat structures in the Clackamas River on BLM lands to improve aquatic habitat complexity and provide high quality rearing habitat for several species of fish. BLM would partner with these two entities to complete the project.	T.4S., R.5E., section 20. Located on the Clackamas River at the upstream end of the North Fork Reservoir, river mile 33.5 to 34, Clackamas County	Complete - DNA signed April 6, 2020.	Mike Mathews <a href="mailto:mmathews@blm.gov">mmathews@blm.gov</a> (503) 375-5646
<b><u>Thetford Lodge Lease Reissue – Septic Replacement (DOI-BLM-ORWA-N010-2020-0003-EA)</u></b> Willamette University proposes to replace the old failing waste system with a contemporary permitted septic system with drain field. And expand lease boundary. Project is within the Riparian Reserve; Late-Successional Reserve; and Canyon Creek Recreation SRMA land use allocations.	T.9S., R.3E., section 7 on Thetford Lodge Occupancy Lease OROR-22180	Ongoing - Released unsigned FONSI and EA for public comment May 15, 2020. Comment period expires June 15, 2020.	Amy Herburger <a href="mailto:aherburger@blm.gov">aherburger@blm.gov</a> (503) 315-5917
<b><u>AT&amp;T Mobility Communication Tower Extension (DOI-BLM-ORWA-N010-2020-0014-CX)</u></b> By application received on March 19, 2020, AT&T Mobility proposes to extend an existing 80-foot communications lattice tower to 100-foot using a 20-foot tower extension. No additional disturbance to site dimensions would be necessary because the only change to would be the tower extension.	T.2S., R.6E., Section 14, SE¼NW¼, Clackamas County, Oregon, OROR-54285	Ongoing - Draft CX completed; IDT to be assigned and review begins July 2020.	Amy Herburger <a href="mailto:aherburger@blm.gov">aherburger@blm.gov</a> (503) 315-5917
<b><u>Salmon River and Boulder Creek Aquatic Restoration Project (DOI-BLM-ORWA-N010-2020-0015-DNA)</u></b> : The project is located with the Salmon Wild and Scenic River and Boulder Creek near the town of Welches, Oregon to increase access to side channel habitats, aquatic habitat complexity, spawning and rearing habitat and to improve channel and floodplain function to maintain complex aquatic habitat for listed fish species. The Project includes construction of large wood structures, boulder placement, and gravel placement through 2020 to 2022, utilizing trees from off-site. Approximately 20 trees would be tipped onsite for large wood structures and to facilitate safe operations	T.2S., R.6E., sections 25, 26, and 36; T.2S., R.7E., section 31	Ongoing - DNA is anticipated to be completed July 2020.	Peter Kauss <a href="mailto:pkauss@blm.gov">pkauss@blm.gov</a> (503) 315-5974

**Table 2: Marys Peak Field Office Proposed Projects**

**Northwest Oregon District Planning Update – Summer 2020**

<i>Name/Description of Project</i>	<i>Location</i>	<i>Planning Status</i>	<i>Contact</i>
30-day public scoping period started on December 3, 2018. The analysis area for the EA includes approximately 25,000 acres of LSR and RR LUA stands north of Highway 126 and within the Siuslaw Field Office, as well as approximately 8,000 acres of Late-Successional Reserve and Riparian Reserve LUA stands within the Mary's Peak Field Office			
<b><u>Siuslaw HLB Landscape Plan (DOI-BLM-ORWA-N030-2020-0002-EA)</u></b> : The Bureau of Land Management (BLM), Siuslaw Field Office, Northwest Oregon District is initiating an Environmental Assessment for the Harvest Land Base. A scoping letter was sent to the Eugene SYU NEPA mailing list on November 20, 2019 and posted on ePlanning. The analysis area for the EA includes approximately 13,948 acres of Harvest Land Base and 5,937 acres Riparian Reserve Land Use Allocations within the Siuslaw Field Office. The “Siuslaw HLB Landscape Plan” Environmental Assessment would programmatically analyze commercial timber harvest and associated connected actions (e.g., road construction, renovation, or improvement, fuels treatments, dead wood creation, etc.) within the Harvest Land Base and Riparian Reserve. This programmatic analysis is not an implementation plan; rather, it is a broad look at the effects of commercial timber harvest across the analysis area on public land west of Eugene, Oregon.	Harvest Land Base and adjacent Riparian Reserve LUAs within the Siuslaw Field Office	Ongoing - EA in Progress with issue and alternative development	Morgan Schneider <a href="mailto:mdschneider@blm.gov">mdschneider@blm.gov</a> (541) 683-6407
<b><u>Spike Schaffer Density Management Categorical Exclusion</u></b> : Commercial thinning project on approximately 63 acres in the Late-Successional Reserve. Proposed actions include commercial timber harvest of young Douglas-fir plantations and connected actions (e.g. renovation, or improvement, fuels treatments, dead wood creation, etc.).	T. 19S, R. 5 W, Section 33	In progress	Morgan Schneider <a href="mailto:mdschneider@blm.gov">mdschneider@blm.gov</a> (541) 683-6407
<b>Public Safety</b>			
<b><u>Hult Reservoir and Dam Safety Environmental Impact Statement (DOI-BLM-ORWA-N030-2018-0010-EIS)</u></b> : This project was placed on hold pending required analysis from the U.S. Army Corps of Engineers. This analysis has been completed and the BLM is processing the information received. This project is expected to publish a new Notice of Intent in the Federal Register in mid-spring to early-summer 2020. In July 2012, the BLM completed a Comprehensive Dam Evaluation (CDE) on the dam and spillway at Hult Reservoir, which found eleven	T.15S., R.7W., section 26	Pre-planning	Joshua M. Carnahan <a href="mailto:jcarnaha@blm.gov">jcarnaha@blm.gov</a> (541) 683-6983

<b><i>Vegetation Management Actions</i></b>			
<p><b><u>Integrated Pest Management for Tyrrell and Horning Seed Orchards EA (DOI-BLM-ORWA-N000-2019-0005-EA):</u></b>                      Proposed project to improve BLM’s ability to manage the Tyrrell and Horning Seed Orchards for the purposes for which the BLM constructed them (USDI 2016d:56). BLM manages the Tyrrell and Horning Seed Orchards to grow high-quality seed for reforestation and restoration efforts of non-BLM cooperators and all of western Oregon BLM-administered lands. To effectively manage the sites, BLM must manage competing and unwanted vegetation, diseases, insects, and animal pests. Proposed project will expand upon current integrated pest management (IPM) program so BLM can meet increased seed demand (due to closure of Medford District seed orchards) more effectively and efficiently, and update the IPM program to respond to label changes and new pests.</p>	Horning and Tyrrell Seed Orchards	EA in progress. Effects analyses began in August 2019. Draft EA and unsigned FONSI was published for a 30-day public comment period in Jan. 2020. Internal Public Comment review ended on 4/10/2020.	Paula Feldmeier <a href="mailto:pfeldmeier@blm.gov">pfeldmeier@blm.gov</a> V (503) 315-5973
<p><b><u>2020 Northwest Oregon District Annual Treatment Plan for Invasive Plant Management/ Integrated Invasive Plant Management Treatments DNA (DOI-BLM-ORWA-N000-2020-0004-DNA)</u></b>                      In accordance with direction in the <i>Decision Record and Integrated Invasive Plant Management for the Northwest Oregon District Environmental Assessment (EA)</i>, the Northwest Oregon District BLM has proposed the 2020 Annual Treatment Plan (ATP) for invasive plant management. The treatment methods identified in this ATP include manual, mechanical, targeted grazing, competitive revegetation treatment methods, the application of one or more herbicides, or a combination of treatment methods.</p>	BLM lands across all 5 Field Offices of the Northwest Oregon District	DNA Public Review June 2020 with a Decision in late June 2020	Emily Erwin <a href="mailto:eerwin@blm.gov">eerwin@blm.gov</a> (541) 683-6439
