**Team Comments – 8/14/07:**

**Phelps**-North Extension is bisected by county road. Seems like it could be managed for a remote experience

**Tippy**- Hunters hunt this area because they can't get on adjacent private land and end up trespassing on private land.

**Phelps**- It is a narrow configuration and gives it a lot of perimeter adjacent to private land.

If you check "No" above, check "N/A" (Not Applicable) in the remaining boxes below, and you need not provide additional evaluation for the unit or subunit. Use additional space as necessary.]

DESCRIPTION OF CURRENT CONDITIONS: (Include land ownership, location, topography, vegetation features and summary of major human uses/activities).

RMP Planning Team Comments on 8/14/07:

North extension is bisected by County Road.

It is a narrow configuration which gives the unit a lot of perimeter adjacent to private.

Hunters hunt this area because they can't get on adjacent private land and end up trespassing on private.

It seems like the unit could be managed for a remote experience.

**The narrowness of the unit (approximately one mile wide) and its irregular shape make it difficult to find an opportunity for solitude or primitive and unconfined recreation.**
