Little Canyon Mtn,)

Wilderness Addition Subunit A					
OR-054- 040 Strawberry Mountain Wilderness Addition Subunit B	391	N	N/A	N/A	N/A

Conclusion

Check One:

☐ Area reviewed lacks sufficient size and does not meet one of the exceptions for small size.

☐ The area-or a portion of the area-has wilderness character.

☒ The area does not have wilderness character.

(1) Describe current conditions: (Include boundary features, land ownership, size, location, topography, vegetation features and summary of major human uses/activities).

The inventory unit is located in Grant County approximately 1 mile south of the town of Canyon City. It is bordered on the south side by USFS Strawberry Mountain Wilderness Area and private land. It is bordered on the north and east by private land, and on the west by the paved US Highway 395, road and utility ROWs and private land. The unit is 2,463 acres in size. The inventory unit is separated into two subunits by a constructed, maintained USFS Route # 333, which provides access to a trailhead for the Strawberry Mountain Wilderness.

Original Inventory

The lands in the 2007 inventory include lands previously inventoried for their wilderness characteristics under Section 603 of FLPMA. In 1979, the initial BLM OR/WA Wilderness Inventory effort addressed these lands, and in 1980 the Intensive Wilderness Inventory for Strawberry Mountain Parcel B (OR-2-98B) addressed these lands in detail. The Final Intensive Inventory Decisions in November 1980 dropped all of Parcel B within the Strawberry Mountain Inventory Unit from further study stating that "Subunit B [and ...] were eliminated because they contain substantially noticeable imprints of man's work and cannot be considered as being in a basically natural condition. These areas are primarily affected by the impacts of various mining operations as well as the impacts of past logging operations (Subunit B). These impacts are substantially noticeable and should not be included within the wilderness study areas."

OR-054-040/ Strawberry Mountain Wilderness Addition Inventory Unit (aka Little Canyon Mtn,)

Description of Current Conditions

The lands that were dropped during the original wilderness inventory are being re-inventoried in 2007. The 2007 subunits labeled as A and B make up the original Subunit B that were dropped from further wilderness consideration in 1980. Today's computer-generated acreage figure for these three parcels combined is 2,463 acres.

Location of Subunits A and B:

Subunit A is bordered on the south side by general management USFS lands and on the west side by US Highway 395, several road and utility ROWs, and private lands. The Subunit is bordered on the east side by the constructed, maintained Forest Road 333 and private land, and on the north side by private land. The subunit is 2,072 acres in size.

At 2072 acres, Subunit A lacks sufficient size to be considered as wilderness and does not meet one of the exceptions for small size. For this reason, Subunit A will not be discussed further in this document.

Subunit B is bordered on the west side by the constructed, maintained Forest Road 333, on the south side by a combination of USFS Strawberry Mountain Wilderness Area and general management USFS lands, and on the east side by private land.

Location of Subunit A: Portions of or all public lands in T. 14 S., R. 31 E., Sections 1, 11, 12, 13, 14; T. 14 S., R. 32 E., Sections 6, 7.

Location of Subunit B: Portions of or all public lands in T. 14 S., R. 32 E., Sections 6, 7 and 8.

Description:

Subunit B is located on the east flanks of Little Canyon Mountain (5,682 feet). It includes Little Pine Creek, a perennial stream which flows from south to north through the subunit, and ridges on either side of the creek drainage. Vegetation is mixed conifer forest. A past wildfire in the adjacent wilderness area burned approximately 80 acres of the subunit, leaving areas of standing and fallen grey-colored snags. Wildlife species include elk, mule deer, bobcat, quail and grouse. Numerous historical resources are present in the Little Canyon Mountain area, left behind from years of historical mining activities, including the remains of wooden trough water transport systems, mine shafts, cabins, etc. The BLM Visual Resource Management Class of Subunit B is Class II.

A portion of Subunit B is currently authorized for commercial grazing under BLM permits # 4056. There are several active mining claims within the subunit, and timber has been harvested repeatedly. Most recently, timber was thinned in 2004 as part of BLM's 2003 Little Canyon Mountain Fuels Reduction Project. Public access is available via USFS Route #333 and there are several unmaintained vehicle routes within the subunit. The 2003 Little Canyon Mountain Fuels Reduction Project closed some unmaintained vehicle routes especially in creek drainages, including some of the routes that likely existed during the original wilderness inventory (See Map labeled 2.4). Recreational uses of this area include hunting, hiking, horseback riding, and OHV riding.

OR-054-040/ Strawberry Mountain Wilderness Addition Inventory Unit (aka
Little Canyon Mtn,)

(2) Is the unit in a natural condition?

Yes _____ No X NA _____

Describe:

Subunit B is not in a natural condition. It has been substantially modified by man due to years of human activities including placer mining, timber harvest, and road building. Timber has been harvested and timber haul roads constructed. Past and current mining claims have left imprints including mine shafts, tailings piles from hydraulic mining, and roads. Even though the 2003 Little Canyon Mountain Fuels Reduction Project did close some of the unmaintained vehicle routes that likely existed during the original wilderness inventory, the 2007 inventory confirms that the unnatural condition of these lands that was present during the 1980 inventory is still present today.

(3) Does the unit have outstanding opportunities for solitude?

Yes _____ No _____ NA X

Description

(4) Does the unit have outstanding opportunities for primitive and unconfined recreation?

Yes _____ No _____ NA X

Description:

(5) Does the unit have supplemental values?

Yes _____ No _____ NA X

Team Members: (Names, Titles, Date)

Initial Review Aug. 14, 2007 by: Heidi Mottl (Recreation/Wilderness), Teal Purrington (NEPA/Planning), Dorothy Thomas (GIS), Anna Smith (Hydrology), Mike Tietmeyer (Range), Dan Tippy (Assistant Field Manager), Rick Demmer (Riparian), Monte Kuk (Wildlife), Robert Vidourek (Forestry), Mike Williams (Planning), Berry Phelps (Recreation), Craig Obermiller (Range), John Morris (Fish), Dana Cork (Transportation), Christina M. Welch (Field Manager), Don Tschida (Fire), Gavin Hoban (GIS), John Zancanella (Cultural), JoAnne Armson (Plants).

Realty/Mineral Records researched by Timothy Finger, BLM Wilderness Specialist on detail from Richland, UT, October, 2008

Approved by:

Christina M. Welch
Field Manager

Oct. 31, 2007
Date

This form documents information that constitutes an inventory finding on wilderness characteristics. It does not represent a formal land use allocation or a final agency decision subject to administrative remedies under either 43 CFR parts 4 or 1610.5-2.

OR-054-040/ Strawberry Mountain Wilderness Addition Inventory Unit (aka Little
Canyon Mountain)

PURPOSE:

This addendum provides signatory authority across gaps in supervisory oversight in the preparation process.

DISCUSSION:

Further study has been conducted to validate the findings approved by the original signator, Christina Welch. As the new Field Manger for the Resource Area and Ms. Welch's replacement I have been briefed by the specialists assigned on the contents and underlying rationale for the findings contained in this document. I approve these findings with my signature below.

Little Canyon Mtn,)

John Day Basin RMP Road Analysis Form

(Factors to consider when determining whether a route is a road for wilderness inventory purposes.)

**Wilderness Inventory Area Name and Number (UNIT_ID): Strawberry Mountain
Wilderness Addition (OR-054-040)**

Route Name and/or Identifier: Malheur National Forest Route 333

1. LOCATION: Please refer to attached map and BLM corporate data (GIS). Route begins in
T 14 S., R 32 E., Section 6, and travels south for approximately 2 miles through portions of
Sections 6 and 7 until it exists BLM land in T 14 S., R 32 E., Section 18.

II. CURRENT PURPOSE OF ROUTE: The route provides public access to a USFS trailhead
for the Strawberry Mountain Wilderness Area, access to mining claims and grazing leases on
non-wilderness BLM and USFS lands, and administrative access.

III. ROAD RIGHT-OF-WAY:

Yes _____ No X Unknown _____

IV. CONSTRUCTION

Yes X No _____

Examples:

Paved _____ Bladed X Graveled X Roadside Berms X
Cut/Fill X Other _____

V. IMPROVEMENTS

Yes X No _____

By Hand Tools _____ By Machine X

Culverts ? Stream Crossings _____ Bridges _____ Drainage X Barriers _____ Other
Culverts are likely, but not documented.

VI. MAINTENANCE:

OR-054-040/ Strawberry Mountain Wilderness Addition Inventory Unit (aka
Little Canyon Mtn,)

A. Is their Evidence or Documentation of Maintenance using hand tools or machinery?

Yes X No

Hand Tools (Y/N) Machine Y (Y/N)

Explain: Is it scheduled route to receive maintenance? This route receives regular maintenance by Malheur National Forest.

B. If route is in good condition, but there is no evidence of maintenance, would mechanical maintenance with hand tools or machines be approved by BLM in the event this route became impassable?

Yes No N/A X

VII. REGULAR AND CONTINUOUS USE:

Yes X No

VIII. CONCLUSION:

To meet the definition of a road, items IV or V, *and* VI-A or B, *and* VII must be checked yes.

Road: Yes X No a

Explanation: The route was bladed for purposes of fire suppression, however, the BLM intends to allow it to rehabilitate back to the pre-fire condition which consisted of a two-track route receiving no maintenance.

Evaluator(s): Heidi Mottl Date: 9/30/07

* **road:** An access route which has been **improved and maintained** by **mechanical means** to insure **relatively regular and continuous use**. A way maintained solely by the passage of vehicles does not constitute a road.

a. **“Improved and maintained”** – Actions taken physically by people to keep the road open to vehicle traffic. “Improved” does not necessarily mean formal construction. “Maintained” does not necessarily mean annual maintenance.

b. **“Mechanical means”** – Use of hand or power machinery or tools.

c. **“Relatively regular and continuous use”** – Vehicular use that has occurred and will continue to occur on a relatively regular basis. Examples are: access roads for equipment to maintain a stock water tank or other established water sources; access roads to maintained recreation sites or facilities; or access roads to mining claims.

The BLM has identified the following man-made features:

In T. 14 S., R. 32 E., Section 6 there is ROW OR 23470, ROW OR 39045, ROW OR 11480, ROW OR 36352, ROW OR 50771, ROW OR 02767, ROW OR 53654, ROW OR 37543, ROW OR 18618, ROW OR 04285, ROW OR 45833, ROW OR 2477, ROW OR 36895

In T. 14 S., R. 32 E., Section 7 there is ROW OR 53654

In T. 14 S., R. 31 E., Sections 11 and 14 there is ROW OR17530

In T. 14 S., R 31 E., Section 12 there is a portion of the Surprise Annex Lode and the Copper Doctor Lode.

There is an Executive Order (07/12/1910) establishing several portions of the subunit as potential power site reserves.
