

Year 2009

Inventory Unit Number/Name: 13-71, Point Doughty

FORM 1

DOCUMENTATION OF BLM WILDERNESS INVENTORY FINDINGS ON RECORD:

1. Is there existing BLM wilderness inventory information on all or part of this area?

No X (Go to Form 2) Yes (if more than one unit is within the area, list the names/numbers of those units.):

a) Inventory Source:

b) Inventory Unit Name(s)/Number(s): 13-23

c) Map Name(s)/Number(s): _

d) BLM District(s)/Field Office(s): Spokane

2. BLM Inventory Findings on Record:

Existing inventory information regarding wilderness characteristics (if more than one BLM inventory unit is associated with the area, list each unit and answer each question individually for each inventory unit):

Existing inventory information regarding wilderness characteristics:

Inventory Source: 1980 Inventory

Unit#/ Name	Size (historic acres)	Natural Condition? Y/N	Outstanding Solitude? Y/N	Outstanding Primitive & Unconfined Recreation? Y/N	Supplemental Values? Y/N

FORM 2

Use additional pages as necessary

**DOCUMENTATION OF CURRENT WILDERNESS INVENTORY
CONDITIONS**

a. Unit Number/Name: 13-71, Point Doughty

(1) Is the unit of sufficient size?

Yes No Rock

[State the BLM acreage of the unit. Describe the boundaries of the unit (roads, property lines, etc.) If the area meets one of the exceptions to the size criterion, check "Yes" and describe the exception. If more than one inventory unit is involved, list the acreage in each and evaluate each unit/subunit separately. Complete the analysis for (1), (2), (3),(4) and (5) for each unit or sub-unit. If you check "No" above, check "N/A" (Not Applicable) in the remaining boxes below, and you need not provide additional evaluation for the unit or subunit. Use additional space as necessary.]

DESCRIPTION OF CURRENT CONDITIONS: (Include land ownership, location, topography, vegetation features and summary of major human uses/activities).

Ownership: BLM ownership is in question and was referenced as BLM ownership by the Washington State Parks Commission

Location: N48 42' 66", W122 57' 06"

Topography: Steep rocky feature domed.

Vegetation Features: None, besides lichens

Major human uses/ activities: Photography, sea kayaking, boating both non-motorized and motorized occur in the area. Hiking occurs to the nearby point through a trail system from a WASPC San Juan Marine Park, day-use site "Point Doughty"

Other items: Point Doughty Rock formation is accessible only at lower tide events. Point Doughty is identified as a WADFW Marine mammal haul out site #508.

(2) Is the unit in a natural condition?

Yes No N/A

Description: Rounded rocks are natural with no apparent impacts. Point Doughty adjoins WA State Park lands on main Orcas Island with no developments other than a trail. Point Doughty is in a natural condition.

3) Does the unit (or the remainder of the unit if a portion has been excluded due to unnaturalness and the remainder is of sufficient size) have outstanding opportunities for solitude?

Yes X No N/A

Description: Outstanding opportunities for solitude can be found on the rock. There is no development within ½ mile and the premier location of the rock extended far into Presidents Channel offer a unique opportunity for isolation and solitude.

(4) Does the unit (or the remainder of the unit if a portion has been excluded due to unnaturalness and the remainder is of sufficient size) have outstanding opportunities for primitive and unconfined recreation?

Yes No X N/A

Description: Recreational opportunities are not outstanding. Recreational boating both motorized and non-motorized does occur in the area. Wildlife viewing is excellent in this area for seabirds, marine mammals and other species. Photography is excellent in this area. Sea Kayaking is also excellent in this area. By itself these opportunities are not outstanding. In combination with the adjoining state park lands the opportunities are outstanding.

(5) Does the unit have supplemental values?

Yes X No N/A

Description: Supplemental values for Point Doughty include a dynamic marine ecological system. The geology of Point Doughty is part of a unique formation regarding Washington State. Other identified values for Point Doughty are scientific and scenic. Point Doughty is identified as a WADFW Marine mammal haul out site #508. Oyster Catchers have been reported to frequent the area.

Summary of Findings and Conclusion

Unit Name and Number: _ 13-71, Point Doughty

Summary

Results of Analysis:

- | | | | |
|---|-------|----|----|
| 1. Does the area meet any of the size requirements? | X Yes | No | |
| 2. Does the area appear to be natural? | X Yes | No | |
| 3. Does the area offer outstanding opportunities for solitude or a primitive and unconfined type of recreation? | X Yes | No | NA |
| 4. Does the area have supplemental values? | X Yes | No | NA |

Conclusion

Check One:

The area—or a portion of the area—has wilderness character.

The area does not have wilderness character.
