

[State Office or NIFC] Objectives and Targets  
 [First Name, Last Name, email address] EMS Coordinator

Objective	Target	Goal	Selection
Reduce Scope 1 and 2 GHG	Achieve reduction of at least 19.8 percent for 2016 from 2008 baseline	Overall 36 percent reduction by 2025	
Reduce Scope 3 GHG Emissions	Maintain at least a 23 percent reduction for 2016 from 2008 baseline	Overall 23 percent reduction maintained through 2025	
Reduction in Energy Intensity	Achieve a 1.8 percent reduction for 2016 based on 2015 baseline.	Overall 47.5 percent reduction by 2025.	
Use of Renewable Energy	Use renewable energy for 10 percent of total energy use.	Achieve 25 percent renewable energy use by 2025.	
Reduction in Potable Water Intensity	Achieve an 18 percent reduction from 2007 baseline	Achieve a 2 percent reduction per year through 2025	
Reduce GHG emitted per mile traveled with fleet	Achieve a 2 percent reduction based on a 2014 baseline.	Achieve a 4 percent reduction by 2017.	
Green Buildings	Achieve 3 percent compliance to Guiding Principles based on Building numbers or square footage (exceed 5000 sq. ft.)	2025 target to be determined.	
Contract actions are compliant with sustainable acquisition requirements.	Reviewed 5 percent of contract actions for products and services for compliance with sustainable acquisition requirements and at least 95 percent are in compliance
