

CHAPTER 5 - COORDINATION AND CONSULTATION

Detailed below is the process followed in the development of the General Management Plan and the public representation, special interests, organizations, and other government agencies that contributed to the planning process.

The original Notice Of Intent, informing the public that a General Management Plan (GMP) for RRCNCA would be developed and listing anticipated issues, initiated the planning and scoping process in January of 1992. The notice invited written comments involving the proposed action and announced several planned public comment meetings to discuss the proposal and gather additional comments and concerns. Meetings were held as follows:

<u>Date</u>	<u>Location</u>	<u>Attendance</u>
01/09/92	Green Valley Library	17
01/15/92	Las Vegas District Office	10
01/21/92	Red Rock Visitor Center	60
01/23/92	BLM Las Vegas District Office	42
02/03/92	Goodsprings Citizens Advisory Council Meeting	20

At this point in the process there was a turnover of the BLM planning team personnel and the new team assessed the process and data collected and determined how to re-enter the process. Preliminary alternatives were designed based on the key issues developed from the scoping process. It was decided to expand the scoping process by presenting these alternatives to the public to solicit additional comments and concerns prior to completing a Draft Plan. Additional public meetings were held as follows:

<u>Date</u>	<u>Location</u>	<u>Attendance</u>
03/10/93	Blue Diamond Library	14
03/15/93	BLM Las Vegas District Office	39
03/20/93	BLM Las Vegas District Office	13
03/24/93	BLM Las Vegas District Office	27

In addition to the above, several special emphasis meetings were held to gain specific insight. These meetings included:

Technical Rock Climbing

03/19/93	BLM Las Vegas District Office	18
----------	-------------------------------	----

Equestrian

03/22/93	BLM Las Vegas District Office	3
----------	-------------------------------	---

<u>Date</u>	<u>Location</u>	<u>Attendance</u>
<u>Bicycle</u>		
04/22/93	BLM Las Vegas District Office	16

Utilizing the data and information collected to this point, the Draft General Management Plan was completed in April of 1994 and dispersed for a 60 day public review and comment period. The following Open House meetings were held for discussion and comments on the Draft GMP:

<u>Date</u>	<u>Location</u>	<u>Attendance</u>
05/11/94	BLM Las Vegas District Office	11
05/14/94	BLM Las Vegas District Office	6
05/19/94	Blue Diamond School	10

In addition to the Open House meetings, the following meetings with special groups were held:

<u>Date</u>	<u>Location</u>	<u>Attendance</u>
<u>Sierra Club</u>		
06/08/94	Las Vegas YMCA	24
<u>Friends Of Red Rock Canyon</u>		
06/18/94	Red Rock Visitor Center	32

At the conclusion of public meetings held during this review period, a Public Hearing meeting was conducted in a formal manner. This hearing allotted a set amount of time for individuals to express their concerns or make comments with no rebuttal from BLM personnel or other attendees. All comments were recorded for consideration in completing the final plan. The Formal Hearing was as follows:

<u>Date</u>	<u>Location</u>	<u>Attendance</u>
05/25/94	BLM Las Vegas District Office	40

The next step in the planning process would normally have been to review all of the input collected during the Draft Plan review period and make the necessary modifications to arrive at a final plan. However, in November of 1994, legislation was passed which expanded the size of RRCNCA to 195,610 acres, which more than doubled the size of the original designated NCA. It was determined that the planning process should be re-initiated at the scoping phase to consider the entire acreage and that an Environmental Impact Statement (EIS) would be more appropriate than an Environmental Assessment (EA) as was

completed for the Draft GMP. It was also decided to develop an interim plan based on the Draft GMP that would administer RRCNCA until a final plan was completed. The plan in affect at the time was the Master Plan for Red Rock Canyon Recreation Lands. The Master Plan had been the governing document since 1976, and was no longer in touch with current activities and values. In June of 1995, the Interim General Management Plan became the governing plan for RRCNCA and will remain so until a final plan is completed.

In September of 1995, the planning process resumed. Even though comments and data collected to this point were still considered valid, public scoping was revisited and meetings were held as follows:

<u>Date</u>	<u>Location</u>	<u>Attendance</u>
09/06/95	BLM Las Vegas District Office	59
09/09/95	BLM Las Vegas District Office	19

Other meetings/presentations associated with the GMP planning effort:

Las Vegas Valley Bicycle Club monthly meeting - 8/1/96

Las Vegas Mountaineers Club monthly meeting - 6/16/98

Several presentations to classes from the National Outdoor Leadership School 1994-1998

A new aspect of the planning process toward the development of the GMP/EIS has been the inclusion of public involvement throughout the planning process. A team of individuals representing the various environmental and recreational interests throughout the local community, along with representatives from commercial interests, the Native American community and other agencies, has been meeting with the BLM interdisciplinary team on a regular basis to continually review and assist in plan development. Participants were requested to have an alternate representative for meetings they could not attend. All members were mailed updates and materials between meetings. Meetings with the expanded team included the following:

<u>Date</u>	<u>Location</u>	<u>Attendance</u>
09/26/95	Las Vegas Field Office	17
10/24/95	Las Vegas Field Office	15
11/04/95	field trip - NCA north of La Madre	13

After reviewing the scoping input, the key issues were updated. The original list of key issues resurfaced along with four additional issues. BLM then completed the Analysis of the Management Situation (AMS), which is a comprehensive look at the total area being considered in the planning process. The AMS document is not part of the actual GMP/EIS, but it is an important part of the planning process and can be viewed at the Las Vegas District Office. The list of issues, planning criteria (laws and other directives), and AMS were used to fashion an array of alternatives to be considered in developing a final plan. The alternatives are discussed in Chapter 2.

On July 1, 1999, the Proposed General Management Plan and Draft Environmental Impact Statement (GMP/DEIS) was distributed to the public for review, coinciding with the beginning of the public comment period which also started on July 1 and ended on September 30, 1999. Due to requests from some of the reviewing interest groups, the comment period was extended to October 31, 1999. During the review period, the BLM held public meetings and attended various organization meetings to present Plan information as follows:
