

Request for Motorized/Mechanized Use in the Battle Creek Allotment
Little Jacks Creek Wilderness Area

On August 18, 2016, the BLM Bruneau Field Office received a request to maintain reservoirs on the Battle Creek Allotment, some of which are located within the Little Jacks Creek Wilderness. The applicant requested the use of a tracked dozer, and would stay on the wilderness boundary road as much as possible to clean the reservoirs depicted on the map below in the month of October. Due to the amount of travel between reservoirs, the applicant estimated it would take the entire month to get them all cleaned. Additionally, they requested to use a pickup or side by side with the dozer, and the dozer would remain on site until all work is completed, reducing travel with it in and out.
