

## **Request for Motorized/Mechanized Use in the Nickel Creek Allotment *North Fork Owyhee Wilderness Area***

On October 24, 2016, the BLM Owyhee Field Office received a request to maintain/repair a reservoir (Indian Battleground Reservoir) in the Nickel Creek Allotment, which is located within the North Fork Owyhee Wilderness. The applicant requested the use of a small tractor to repair the reservoir (which is included in the wilderness inventory). This request is a one-trip ingress/egress that would be via cherry stem road and then onto a 1/4 mile of an pre-existing two-track road (closed after wilderness designation).
