Ms. Wilcken,

Forwarded herewith please find a plat and several deeds showing lands in T3S, R1E, USM, section 22: Part of the N2SE that Crescent Point Energy US Corp hereby nominates for lease, subject to concurrence of the Bureau of Reclamation. I understand that nominations for the next BLM lease offering in Uintah County, Utah are open until January 2016 for a lease offering in November 2016.

I understand that Bureau of Reclamation has previously failed to respond to requests from Bureau of Land Management for concurrence in leasing.

Please reply if I need to send a more formal letter requesting nomination of lands for lease. Bureau of Reclamation also appears to own the SESE of section 21, T3S, R1E, USM which Crescent Point also nominates for the November 2016 oil and gas lease offering subject to concurrence of the Bureau of Reclamation.

In the event Bureau of Reclamation is not interested in leasing, would Bureau of Reclamation consider a "land exchange" for lands that have mitigation value but are not in an oil field?
