

U.S. Department of the Interior
Bureau of Land Management

Bureau of Land Management
Northwest Oregon District
Winter-Spring 2021 Quarterly Planning Update

The Bureau of Land Management (BLM) manages more than 245 million acres of public land located primarily in 12 Western states, including Alaska. The BLM also administers 700 million acres of subsurface mineral estate throughout the nation. The agency's mission is to sustain the health, diversity, and productivity of America's public lands for the use and enjoyment of present and future generations.

United States Department of the Interior

BUREAU OF LAND MANAGEMENT
Northwest Oregon District Office
1717 Fabry Road SE, Salem, Oregon 97306
<http://www.blm.gov>

Welcome to the Winter-Spring 2021 edition of the Bureau of Land Management (BLM) Northwest Oregon District's quarterly Planning Update newsletter. The purpose of our publication is to provide you with information on proposed activities on lands administered by the BLM within the Northwest Oregon District

I am seeking comments and ideas on the attached quarterly Planning Update from those who may be affected by our management programs. My intent is to increase the public's awareness of BLM issues, activities, opportunities, and to get your feedback as to whether we missed any issues as the District moves forward with project planning. Your comments and suggestions are appreciated and are very important to us. They help us make informed decisions, take sound land management actions, and improve our projects. The Planning Update newsletter includes projects in the National Environmental Planning Act (NEPA) process and the status of the current Fiscal Year's timber sale program.

The District posts all NEPA documents and final decisions on the BLM National NEPA register (ePlanning). Please see the first section of this publication for more information about the ePlanning website.

Continuing our service to the public while doing our part to address COVID-19 is very important. The health and safety of staff and visitors in these facilities is our number one priority. Following guidance from the CDC and recommendations from state and local public health authorities, the BLM is temporarily restricting in-person public access to some offices in Oregon. Please check with individual offices for customer service availability by phone before arriving at the office.

We welcome your comments for our consideration, as they may influence the final decision on these projects. Thank you for your continued interest!

Sincerely,

Digitally signed by
JOSE LINARES

Projects Described in this Document

Tables 1 through 6, below, describe the planning status of current projects. Projects are organized by project type, project name/description, location, planning status, and contact person. Projects started and completed between editions of this document have gone through the full analysis process. The BLM notifies the public of these projects through this document; mailings and emails to contacts on the Northwest Oregon District Field Offices' National Environmental Policy Act (NEPA) notification lists; newspaper legal notices; and postings on the BLM National NEPA register website ([ePlanning](https://www.blm.gov/programs/planning-and-nepa/plans-in-development/oregon-washington)). Previous Quarterly Planning updates for the Northwest Oregon District can be located here: <https://www.blm.gov/programs/planning-and-nepa/plans-in-development/oregon-washington>. Tables 7 and 8 describe the Fiscal Year 2021 timber sales by Sustained Yield Unit (SYU). The timber sales listed in Tables 7 and 8 are considered “green timber” sales. Fire salvage timber sales are not included in Tables 7 and 8 at this time. The SYU timber sale plan can be found at the following website: <https://www.blm.gov/or/resources/forests/index.php>.

ePlanning Register Website

To access this site, go to: <https://eplanning.blm.gov/eplanning-ui/home>. Under “Find a Project” you can search by “State” (*Oregon/Washington*), Office (select *NW Oregon District Office* for Northwest Oregon District projects, select *Cascades FO* (Field Office) for Cascades projects, select *Marys Peak FO* for Marys Peak projects, select *Siuslaw FO* for Siuslaw projects, select *Tillamook FO* for Tillamook projects, and select *Upper Willamette FO* for Upper Willamette projects). You can also search by “Type(s)” of document (*Categorical Exclusions, Determination of NEPA Adequacy, Environmental Assessment, Environmental Impact Statement*), resource “Program(s)”, and fiscal “Year(s)” (October to September) the project was inputted into ePlanning. You do not need to fill out all of these options to search. Check the box next to “Show only open participation periods” to see projects with open comment periods. Unselect the box next to “Show only active projects” if you want to see all projects within a given Office, Type, Program, and/or Year. Then click the **Search** button and your results will be shown below. You can also search by entering the NEPA number or project name (under the “Name/Description of Project” column in Tables 1-6 below). Many projects in Tables 1-6 of this document are hyperlinked to ePlanning. If you have an electronic copy of the Planning Update, you may click on the project name in Tables 1 to 6 to access the ePlanning project website.

*** Continuing our service to the public while doing our part to address COVID-19 is very important. The health and safety of staff and visitors in these facilities is our number one priority. Following guidance from the CDC and recommendations from state and local public health authorities, the BLM is temporarily restricting in-person public access to some offices in Oregon.

Please check with individual offices for customer service availability by phone before arriving at the office.

Acronyms and Definitions

Categorical Exclusion (CX): A category of actions (identified in agency guidance) that do not have a significant effect on the quality of the human environment and for which neither an environmental assessment nor an environmental impact statement is required.

Decision Record (DR): The BLM decision document associated with an EA that describes the action to be taken when the analysis supports a finding of no significant impact.

Determination of NEPA Adequacy (DNA): An interim step in the BLM’s internal analysis process that concludes that a proposed action is adequately analyzed in an existing NEPA document (an EIS or EA). Where applicable, the determination also addresses conformance with an approved land use plan.

District Designated Reserve (DDR): One of the federal land use allocations set forth in the 2016 Northwestern and Coastal Oregon Resource Management Plan (RMP). The objective of this land use allocation is to maintain the values and resources for which the BLM has reserved these areas from sustained-yield harvest. These lands include constructed facilities and infrastructure, such as seed orchards, roads, communication sites, quarries, buildings, and maintenance yards, as well as Areas of Critical Environmental Concern (ACEC), Timber Production Capabilities Classification (TPCC) lands, and Lands Managed for their Wilderness Characteristics (LWC).

Environmental Assessment (EA): A public document prepared pursuant to the National Environmental Policy Act (NEPA) that provides sufficient evidence and analysis to determine whether a federal undertaking would significantly affect the quality of the human environment. If the answer is no, the agency issues a finding of no significant impact (FONSI), otherwise, the agency will prepare an Environmental Impact Statement (EIS).

Environmental Impact Statement (EIS): A document mandated by NEPA to assess the potential impacts of federal agency actions “significantly affecting the quality of the human environment.”

Finding of No Significant Impact (FONSI): A finding that explains how an action will not have a significant effect on the quality of the human environment pursuant to NEPA, and, therefore, an environmental impact statement will not be required.

FY: Fiscal Year.

Harvest Land Base (HLB): One of the federal land use allocations set forth in the Northwestern and Coastal Oregon RMP. Those lands on which the determination and declaration of the Annual Productive Capacity/Allowable Sale Quantity (ASQ) is based. The ASQ is based on implementing a set of specific timber management activities and assumes those practices will be repeated over time and results in a sustainable harvest level. This includes the Moderate Intensity Timber Area (MITA) and Low Intensity Timber Area (LITA).

Land Use Allocation (LUA): A designation defining uses that are allowed, restricted, or prohibited for a particular area of land. The LUAs are Congressionally Reserved Lands and

National Conservation Lands, District-Designated Reserve, Harvest Land Base, Late-Successional Reserve, and Riparian Reserve.

Late-Successional Reserves (LSR): One of the federal land use allocations set forth in the Northwestern and Coastal Oregon RMP land use allocations. The Northwestern and Coastal Oregon RMP designated lands to a land use allocation of the same name, but the objectives of the LSR are to manage habitat for the northern spotted owl and marbled murrelet.

Low Intensity Timber Area (LITA): A sub-allocation of the Harvest Land Base land use allocation. See *Harvest Land Base*.

MBF: Thousand board feet.

Moderate Intensity Timber Area (MITA): A sub-allocation of the Harvest Land Base land use allocation. See *Harvest Land Base*.

National Environmental Policy Act (NEPA): A federal law that requires agencies to determine if their proposed actions have significant environmental effects. The NEPA procedures ensure that environmental information is available to the public, and that the public has an opportunity to participate in the process before federal agency decisions are made and before actions are taken that may have a significant effect on the environment. The NEPA process provides an understanding of environmental consequences of the proposed actions to help federal agency officials make decisions.

Regeneration harvest: Any removal of trees intended to assist regeneration already present or to make regeneration possible.

Riparian Reserve (RR): One of the federal land use allocations set forth in the 2016 Northwestern and Coastal Oregon RMP. Lands within the Riparian Reserve were designated to manage for ESA-listed fish species and their habitats and water quality.

SBA: Small Business Administration.

Sustained Yield Unit (SYU): An administrative unit for which an allowable sale quantity is calculated. In western Oregon, the six sustained yield units correspond to the Coos Bay; Eugene; Medford, Roseburg, and Salem Districts, and the western portion of the Klamath Falls Field Office. The consolidation of the Salem and Eugene Districts did not affect sustained yield units.

Thinning - Commercial Thinning/Density Management: Commercial thinning is stand thinning in which some or all of the cut trees are removed from the stand for timber. Density Management is the cutting of trees for the primary purpose of widening their spacing so that growth of remaining trees can be accelerated. Density management harvest can also be used to improve forest health, to open the forest canopy, or to accelerate the attainment of old growth characteristics if maintenance or restoration of biological diversity is the objective. Specific objectives would vary by land use allocation.

Table 1: Cascades Field Office Proposed Projects

<i>Name/Description of Project</i>	<i>Location</i>	<i>Planning Status</i>	<i>Contact</i>
Vegetation Management Actions			
FY 2021 Timber Sales: The current status of Cascades Field Office timber sales is described in Table 7: Carolyn’s Cranes and Unger Dog (non-ASQ).			
<u>Bi-County Timber Management Project (DOI-BLM-ORWA-N010-2017-0008-EA)</u> : This project proposes thinning and regeneration harvest on approximately 580 acres under multiple timber sales within the Harvest Land Base-MITA land use allocation.	T.6S. R.1E., sections 13, 25; T.7S., R.2E., sections 9, 15, 23, 27, 33. Abiqua-Pudding Creek, Butte-Pudding Creek, and Rock Creek Watersheds, Marion and Clackamas Counties	EA Completed August 2019. FONSI signed June 26, 2019. Decision Record (DR) on Sweet Pea Timber Sale signed August 7, 2019. DR on Gallon House Timber Sale signed November 8, 2019. DR on Cemetery Road Timber Sale signed July 28, 2020 (no appeal). DR on Carolyn’s Cranes Timber Sale signed August 17, 2020 (no appeal).	Tanner Hartman <u>tohartman@blm.gov</u> (503) 315-5966
<u>Fishermen’s Bend Vegetation Management Plan EA (DOI-BLM-ORWA-N010-2017-0017-EA)</u> : This project proposes to outline the reforestation techniques used to revegetate the recreation site post emergency harvest of the dead and dying conifers.	T.9S., R.2E., sections 25 and 26, Fishermen's Bend Recreation Site, approximately 2 miles east of Mill City in Marion County, Oregon	Project paused due to impacts from Beachie Creek fire.	Kenny Ruzicka <u>kruzicka@blm.gov</u> (503) 375-5713
<u>Green Peter Timber Management Project (DOI-BLM-ORWA-N010-2019-0015-EA)</u> : This project proposes commercial thinning and regeneration harvest on approximately 430 acres under multiple timber sales within the HLB-MITA land use allocation. Approximately 108 acres of the proposed project is located within the Green Peter Peninsula Extensive Recreation Management Area	T.12S., R.3E., section 19, 20, 21, and 30. Green Peter Lake-Middle Santiam River 5th Field Watershed, Linn County	EA Completed – with FONSI signed November 5, 2020.	Tanner Hartman <u>tohartman@blm.gov</u> (503) 315-5966
<u>Unger Dog Timber Management Project (DOI-BLM-ORWA-N010-2020-0004-CX)</u> : Project is to maintain and improve Horning Seed Orchard operations for seed generation through regeneration harvest and commercial thinning (non-ASQ). Entire project area is District-Designated Reserve land use allocation.	T.4S., R.3E., sections 13 and 23 approximately 40 miles northeast of Salem, Clackamas County, Oregon	Ongoing – CX under specialist review. Decision Record to be signed early Spring 2021.	Charles Brown <u>cwbrown@blm.gov</u> (503) 375-5605

Northwest Oregon District Planning Update – Winter-Spring 2021

<i>Name/Description of Project</i>	<i>Location</i>	<i>Planning Status</i>	<i>Contact</i>
<u>Mr. Walton’s Opus Timber Management Project (DOI-BLM-ORWA-N010-2020-0013-EA)</u> : This project proposes thinning and regeneration harvest on approximately 786 acres under multiple timber sales within the Harvest Land Base-MITA land use allocation (LUA). Also proposed are treatments within an 8-acre Riparian Reserve LUA to improve fish and aquatic habitat.	T.4S., R.4E., Sections 23 and 35; T.5S., R.4E., sections 2 and 3; T.5S., R.4E., sections 3, 5, 9 and 10; T.5S., R.4E., sections 7, 9, 10 and 17, Clackamas County, Oregon	Paused for emergency stabilization and rehabilitation actions within Beachie Creek and Riverside Fire perimeters.	Tanner Hartman tohartman@blm.gov (503) 315-5966
Post Fire Restoration and Salvage			
<u>Beachie Creek Post-Wildfire Emergency Stabilization and Rehabilitation Project (DOI-BLM-ORWA-N010-2021-0001-CX)</u> : BLM is implementing post-wildfire emergency stabilization and rehabilitation activities within the Beachie Creek Fire perimeter based on the final 2020 Beachie Creek and Riverside Fires Burned Area Emergency Response Plan (BAER Plan). The objective of this Project is to determine the need for, prescribe and implement emergency treatments to minimize threats to life or property and to stabilize and prevent unacceptable degradation to natural and cultural resources resulting from the effects of a fire. The CX authority is Departmental 1.13, Post-Fire Rehabilitation Activities.	T.6S., R.2E.; T.6S., R.3E.; T.7S., R.2E.; T.7S., R.3E.; T.7S., R.4E.; T.8S., R.2E.; T.8S., R.3E.; T.8S., R.4E.; T.9S., R.2E.; T.9S., R.3E.; T.9S., R.4E.; T.10S., R.3E.; T.10S., R.4E., Sections within the Beachie Creek Fire perimeter, Marion County, Willamette Meridian, Oregon	Complete. Decision Record signed January 14, 2021.	René Wahl rwahl@blm.gov (503) 375-5646
<u>Beachie Creek Fire Emergency Stabilization and Rehabilitation Roadside Hazard Tree Removal Project (DOI-BLM-ORWA-N010-2021-0004-CX)</u> : BLM is implementing post-wildfire emergency stabilization and rehabilitation roadside hazard/danger tree removal on both sides of approximately 102 miles (3802) acres. The objective of this Project is to eliminate dead and dying trees along selected roads to minimize the potential for injury/damage from falling trees. The CX authority is BLM I.1, Emergency Stabilization.	T.6S., R.2E.; T.6S., R.3E.; T.7S., R.2E.; T.7S., R.3E.; T.7S., R.4E.; T.8S., R.2E.; T.8S., R.3E.; T.8S., R.4E.; T.8S., R.5E., T.9S., R.2E.; T.9S., R.3E.; T.9S., R.4E.; T.10S., R.3E.; T.10S., R.4E., Sections within the Beachie Creek Fire perimeter, Marion County, Willamette Meridian, Oregon	Complete. Decision Record signed January 27, 2021.	René Wahl rwahl@blm.gov (503) 375-5646

Northwest Oregon District Planning Update – Winter-Spring 2021

<p><u>Riverside Post-Wildfire Emergency Stabilization and Rehabilitation Project (No NEPA number yet):</u> This Project would be based on the BAER Plan and implement post-wildfire emergency stabilization and rehabilitation activities within the Riverside Fire perimeter. The objective of this Project would be to determine the need for, prescribe and implement emergency treatments to minimize threats to life or property and to stabilize and prevent unacceptable degradation to natural and cultural resources resulting from effects of a fire. The CX authority is anticipated to be Departmental 1.13, Post-Fire Rehabilitation Activities.</p>	<p>T.4S., R.4E.; T.4S., R.5E.; T.4S., R.6E.; T.5S., R.3E.; T.5S., R.5E.; T.5S., R.6E.; T.6S., R.3E.; T.6S., R.4E.; T.6S., R.5E.; T.6S., R.6E.</p>	<p>Planned.</p>	<p>René Wahl rwahl@blm.gov (503) 375-5646</p>
<p><u>Riverside Fire Emergency Stabilization and Rehabilitation Roadside Hazard Tree Removal Project (No NEPA number yet):</u> This Project would implement emergency stabilization and rehabilitation roadside hazard/danger tree removal on both sides of selected roads, the miles of which will be determined (as well as acres). The objective of this Project would be to eliminate dead and dying trees along selected roads to minimize the potential for injury/damage from falling trees. The CX authority would be either Departmental 1.13, Post-Fire Rehabilitation Activities or BLM I.1, Emergency Stabilization.</p>	<p>T.4S., R.4E.; T.4S., R.5E.; T.4S., R.6E.; T.5S., R.3E.; T.5S., R.5E.; T.5S., R.6E.; T.6S., R.3E.; T.6S., R.4E.; T.6S., R.5E.; T.6S., R.6E.</p>	<p>Planned.</p>	<p>René Wahl rwahl@blm.gov (503) 375-5646</p>
<p><u>Fawn Creek Fire Salvage CX (DOI-BLM-ORWA-N010-2021-0007-CX):</u> The BLM is proposing to conduct salvage harvest on approximately 190 acres of recently burned timber in the Harvest Land Base MITA. Danger tree removal would occur along roads in all land use allocations.</p>	<p>T.8S., R.3E., section 26, T.8S., R.4E, sections 30, 31. Marion County</p>	<p>Scoping planned for March 2021.</p>	<p>Andy Frazier afrazier@blm.gov (503) 315-5979</p>
<p><u>Black Horse Fire Salvage Project (DOI-BLM-ORWA-N010-2021-0006-CX):</u> The project proposes salvage of up to 250 acres within the Harvest Land Base LUA to recover economic value of dead and dying trees. Salvage operations would include both cable and ground-based logging.</p>	<p>T.7S., R.3E., Sections 15, 21, 22, 23, 24, 26, and 27, Clackamas County, Oregon</p>	<p>Scoping planned for March 2021.</p>	<p>Tanner Hartman tohartman@blm.gov (503) 315-5966</p>
<p><u>Cascades Field Office Roadside Hazard Tree Treatment and Vegetation Management Project (DOI-BLM-ORWA-N010-2021-0005-EA):</u> The project proposes falling and removal of hazard trees along BLM-administered and controlled roads within areas impacted by the 2020 fires across all ROD/RMP LUA. The proposal also includes replanting and mechanical maintenance to increase stand resilience.</p>	<p>BLM-administered lands and road systems within the 2020 fire perimeters. Marion and Clackamas Counties, Oregon</p>	<p>Scoping on project February 24-March 10, 2021.</p>	<p>Tanner Hartman tohartman@blm.gov (503) 315-5966</p>

Northwest Oregon District Planning Update – Winter-Spring 2021

Recreation Actions			
<u>Wildwood Recreation Area Management Plan (DOI-BLM-ORWA-N010-2016-0003-EA)</u> : The purpose of the plan is to analyze how the site is currently serving regional recreation needs, including overnight use and environmental education.	T.2S., R.7E., section 31. Clackamas County	Project paused.	Dan Davis ddavis@blm.gov (503) 315-5935
<u>Mt Hood Wild and Scenic Rivers Comprehensive Management Plan (DOI-BLM-ORWA-N010-2019-0018-EA)</u> : BLM is participating as a cooperating agency with the US Forest Service in the development of a Comprehensive River Management Plan (CRMP) for nine Wild and Scenic Rivers within the Mt. Hood National Forest. Four of the rivers are either on, adjacent to, or near lands that BLM manages. The South Fork Clackamas River corridor is the only river corridor that includes both National Forest System and BLM-administered lands.	Nine rivers within the Mt. Hood Area	Ongoing. Public review of EA and Draft CRMP scheduled for February 19 to March 22, 2021.	Whitney Wirthlin wwirthli@blm.gov (503) 375-5612
Miscellaneous Land Use Requests			
Process Requests (EA/CX/DNA) : For various land uses such as rights-of-way, tail-holds, and special use permits	Cascades Field Office-wide	Ongoing	
<u>Thetford Lodge Lease Reissue – Septic Replacement (DOI-BLM-ORWA-N010-2020-0003-EA)</u> : Willamette University proposes to replace the old failing waste system with a contemporary permitted septic system with drain field and expand lease boundary. Project is within the Riparian Reserve; Late-Successional Reserve; and Canyon Creek Recreation SRMA land use allocations.	T.9S., R.3E., section 7 on Thetford Lodge Occupancy Lease OROR-22180	Withdrawn. Thetford Lodge was destroyed during the Beachie Creek Fire. Hazmat and decommissioning/rehabilitation of site pending.	Amy Herburger aherburger@blm.gov (503) 315-5917
<u>AT&T Mobility Communication Tower Extension (DOI-BLM-ORWA-N010-2020-0014-CX)</u> : By application received on March 19, 2020, AT&T Mobility proposes to extend an existing 80-foot communications lattice tower to 100-foot using a 20-foot tower extension. No additional disturbance to site dimensions would be necessary because the only change to would be the tower extension.	T.2S., R.6E., Section 14, SE¼NW¼, Clackamas County, Oregon, OROR-54285	Completed. Decision Record signed September 2, 2020.	Amy Herburger aherburger@blm.gov (503) 315-5917

Northwest Oregon District Planning Update – Winter-Spring 2021

<p><u>C800 Crutcher Bench Communication Tower Microwave Beam Path Right-of-Way (DOI-BLM-ORWA-N010-2021-0003-EA)</u> Clackamas 800 Radio Group (C800) proposes a microwave beam path right-of-way from its Crutcher Bench Essential Public Communications Services Facility (communications) tower to Hoodland Fire Tower 252 (Proposed Action) to enhance emergency communication capability and public safety. Currently the microwave signal is obstructed by trees. The beam path right-of-way would provide a long-term solution to signal interference, within which tree heights would be modified to ensure connectivity. The Project would increase predictability of emergency services and public safety because this would be a second (backup) microwave signal path.</p>	<p>T. 2 S., R. 7 E., Sections 28 and 29, Clackamas County, Oregon, OROR- 70321</p>	<p>Public EA and Unsigned FONSI review period from February 27, 2021 through March 13, 2021.</p>	<p>Amy Herburger aherburger@blm.gov (503) 315-5917</p>
--	--	--	--

Table 2: Marys Peak Field Office Proposed Projects

<i>Name/Description of Project</i>	<i>Location</i>	<i>Planning Status</i>	<i>Contact</i>
Vegetation Management Actions			
FY 2021 Timber Sales: The current status of Marys Peak timber sales is described in Table 7: Mustang Ranch and Kluster.			
<u>Beaty Ryder Late-Successional Reserve Enhancement EA (DOI-BLM-ORWA-N020-2018-0009-EA)</u> : The BLM is planning a thinning harvest on approximately 374 acres of forest stands in Benton County. Stands proposed for treatment are within the 30- to 70-year age classes.	T.13S., R.7W., section 31, and T.13S., R.8W., section 25. Benton County	Completed. Decision Record signed July 2020. Protests denied December 2020.	Scott Hopkins shopkins@blm.gov (503) 315-5956
<u>Little K Forest Management EA (DOI-BLM-ORWA-N020-2019-0011-EA)</u> : The BLM is proposing timber harvest on approximately 460 acres within the Harvest Land Base (MITA). Forest stands are within the 60- to 80- year age classes. Portions of the project area were commercially thinned between 2003-2011.	T.7S., R.7W., section 31, and T.8S., R.8W., section 11. Polk County	Ongoing. BLM released updated EA for public comment August 2020. Decision expected summer 2021.	Macrina Lesniak mlesniak@blm.gov (503) 315-5963
<u>Wild Goose Timber Harvest EA (DOI-BLM-ORWA-N020-2017-0006-EA)</u> : The BLM is issuing a decision for the remaining forest management projects analyzed within this EA. Actions include regeneration harvest within mid-seral forests in the Harvest Land Base (LITA), road work, and post-harvest fuel reduction treatments.	T.7S., R.6W., sections 4-7. Polk County.	Ongoing. Decision expected spring/summer 2021.	Stefanie Winfree swinfree@blm.gov (503) 375-5601
Recreation Actions			
<i>The BLM is not planning any recreation actions in the Marys Peak Field Office at this time.</i>			
Restoration Actions			
<u>Upper Rickreall Creek Log Transport DNA (No NEPA number yet)</u> : The BLM is considering transporting up to 60 logs from decking sites at Laurel Mountain (7-7-31 road) and Teal Creek and up to 120 logs from the 8-6-31.0 road to decking sites along Rickreall Creek (7-6-36 road) in preparation for a possible LWD project in Upper Rickreall Creek.	T.8S., R.6W., section 31; T.7S., R.7W., section 29; T.8S., R.7W., sections 2 and 3. Polk County.	DNA anticipated for 2021 completion.	Anthony Spitzack aspitzack@blm.gov (503) 315-5960
<u>2020 Upper Luckiamute River Large Woody Debris Project DNA (DOI-BLM-ORWA-N020-2020-0005-DNA)</u> : The BLM is considering a large woody debris placement project in the Upper Luckiamute River in the Luckiamute watershed. The project would source up to 80 trees (tipping and cutting) from BLM-managed land, transport those logs to the restoration site, and place wood into the creek through a series of debris jams.	T.9S., R.7W., sections 4, 5, 9, 15, 17, and 21, Polk County.	DNA completed June 2020.	Anthony Spitzack aspitzack@blm.gov (503) 315-5960

Northwest Oregon District Planning Update – Winter-Spring 2021

<i>Name/Description of Project</i>	<i>Location</i>	<i>Planning Status</i>	<i>Contact</i>
<u>South Fork Pedee Creek and Glenbrook Tributary Creek Culvert Replacement (DOI-BLM-ORWA-N020-2020-0006-DNA)</u> : The BLM is replacing culverts on South Fork Pedee Creek and an unnamed tributary of Glenbrook Creek.	T.9S., R.7W., section 13. Polk County.	DNA completed July 2020.	Anthony Spitzack aspitzack@blm.gov (503) 315-5960
<u>Upper Beaty Creek Culvert Replacement (No NEPA number yet)</u> : The BLM is considering a project to replace and reorient an undersized culvert at the 13-8-36.0 road crossing over Beaty Creek.	T.13S., R.8W., section 36. Benton County.	DNA anticipated for spring/summer 2021 completion.	Anthony Spitzack aspitzack@blm.gov (503) 315-5960
Miscellaneous Land Use Requests			
<u>Caldwell Right-of-Way Grant (DOI-BLM-ORWA-N020-2021-0002-CX)</u> : The BLM issued a right-of-way grant to authorize a well, pumphouse, and water tank on approximately 0.03 acres of BLM-managed lands.	T.6S., R.10W., section 35. Lincoln County.	CX/DR completed December 2020.	Janet Myers jmyers@blm.gov (503) 315-5978
<u>Marys Peak Bonneville Power Administration Communications Site Project EA (DOI-BLM-ORWA-N020-2016-0004-EA)</u> : The BLM signed an MOU with the Bonneville Power Administration (BPA) to serve as a cooperating agency on the project. The BPA needs to maintain and upgrade the existing communications site at Marys Peak. The BLM will issue its own decision. See BPA website for more information: https://www.bpa.gov/efw/Analysis/NEPADocuments/Pages/Marys-Peak-BPA-Communications-Site-Project.aspx	T.12S., R.7W., sections 21, 28. Benton County.	Ongoing. BPA offered a public comment on the draft EA in fall 2020.	Stefanie Winfree swinfree@blm.gov (503) 375-5601
<u>Process Requests (EA/CX/DNA)</u> : For various land uses such as rights-of-way, tailholds, and special use permits.	Marys Peak Field Office-wide	Ongoing	Stefanie Winfree swinfree@blm.gov (503) 375-5601

Vegetation Management Actions			
FY 2021 Timber Sale: The current status of Siuslaw’s timber sales are described in Table 8: Pucker Up.			
<p><u>Nails Creek Environmental Assessment (DOI-BLM-ORWA-N030-2017-0007-EA)</u>: Initial scoping letter was sent out November 2016. A field trip for the commenters was conducted on November 8, 2017. The EA was released for public comment in September 2018. The Nails Creek Project is approximately 304 acres within the Harvest Land Base, Moderate Intensity Timber Area, which are being considered for the following treatments: Regeneration Harvest, designation of retention areas, reforestation, commercial thinning, snag creation, fuels treatments, and other associated activities such as logging systems, road construction, road renovation and road improvement</p>	T.16S., R.6W., sections 1, 3, and 11	EA completed and FONSI signed May 2019, upcoming timber sale decisions: High Three	Joshua M. Carnahan jcarnaha@blm.gov (541) 683-6983
<p><u>South Siuslaw Environmental Assessment (DOI-BLM-ORWA-N030-2017-0027-EA)</u>: Initial scoping letter was sent out on August 25, 2018. The EA was released for public comment on February 14, 2019. The areas being proposed for thinning are approximately 3,200 acres within the Late-Successional Reserve (LSR) and Riparian Reserve (RR) Land Use Allocations and are being considered for the following treatments: Commercial thinning, snag creation, skip and gap creation, tree planting, tree tipping and non-commercial thinning. Associated forest management actions from logging systems, road construction, and road renovation and improvement would be part of the proposed action.</p>	T.20S., R.4W., sections 15, 17, 19, 21, 23, 27, 29, 31, and 33; T.21S., R.4W., sections 3 and 5; T.21S., R.5W., sections 15, 17, 21, 29, and 35	Project complete	Joshua M. Carnahan jcarnaha@blm.gov (541) 683-6983
<p><u>N126 LSR Landscape Plan (DOI-BLM-ORWA-N030-2018-0022-EA)</u>: This EA will programmatically analyze actions to restore complex late-successional forests, including commercial timber harvest, non-commercial restoration treatments, and associated connected actions (e.g., roadwork, fuels treatments, dead wood creation, etc.) within the LSR and RR LUA lands managed by the Siuslaw Field Office.</p> <p>Planning for this project is ongoing. An initial scoping letter was sent out on August 25, 2018. The 30-day public scoping period started on December 3, 2018. The analysis area for the EA includes approximately 25,000 acres of LSR and RR LUA stands north of Highway 126 and within the Siuslaw Field Office, as well as approximately 8,000 acres of Late-Successional Reserve and Riparian Reserve LUA stands within the Mary’s Peak Field Office.</p>	Late-Successional Reserve and Riparian Reserve LUAs of the Siuslaw Field Office, north of Hwy. 126	EA is complete and decision signed.	Joshua M. Carnahan jcarnaha@blm.gov (541) 683-6983

Northwest Oregon District Planning Update – Winter-Spring 2021

<i>Name/Description of Project</i>	<i>Location</i>	<i>Planning Status</i>	<i>Contact</i>
<p><u>Siuslaw HLB Landscape Plan (DOI-BLM-ORWA-N030-2020-0002-EA)</u>: The Bureau of Land Management (BLM), Siuslaw Field Office, Northwest Oregon District is initiating an Environmental Assessment for the Harvest Land Base. A scoping letter was sent to the Eugene SYU NEPA mailing list on November 20, 2019 and posted on ePlanning. The analysis area for the EA includes approximately 13,225 acres of Harvest Land Base Land Use Allocations within the Siuslaw Field Office. The “Siuslaw HLB Landscape Plan” Environmental Assessment would programmatically analyze commercial timber harvest and associated connected actions (e.g., road construction, renovation, or improvement, fuels treatments, dead wood creation, etc.) within the Harvest Land Base. This programmatic analysis is not an implementation plan; rather, it is a broad look at the effects of commercial timber harvest across the analysis area on public land west of Eugene, Oregon.</p>	Harvest Land Base within the Siuslaw Field Office	Ongoing - EA in Progress	Morgan Schneider mdschneider@blm.gov (541) 683-6407
<p><u>Spike Schaffer Density Management Categorical Exclusion (DOI-BLM-ORWA-N030-2019-0010-CX)</u>: Commercial thinning project on approximately 63 acres in the Late-Successional Reserve. Proposed actions include commercial timber harvest of young Douglas-fir plantations and connected actions (e.g. renovation, or improvement, fuels treatments, dead wood creation, etc.).</p>	T. 19S, R. 5 W, Section 33	Complete	Morgan Schneider mdschneider@blm.gov (541) 683-6407
Public Safety			
<p><u>Hult Reservoir and Dam Safety Environmental Impact Statement (DOI-BLM-ORWA-N030-2018-0010-EIS)</u>: This project was placed on hold pending required analysis from the U.S. Army Corps of Engineers. This analysis has been completed and the BLM is processing the information received. This project is expected to publish a new Notice of Intent in the Federal Register in mid-spring to early-summer 2020. In July 2012, the BLM completed a Comprehensive Dam Evaluation (CDE) on the dam and spillway at Hult Reservoir, which found eleven potential failure modes presenting unacceptable high risks for dam failure, five of which warrant expedited action to address. The notice of intent (NOI) was published in the Federal Register on May 1, 2018 (a link to the Federal Register NOI can be found here). The public comment period for the Hult Reservoir and Dam Safety EIS closed on June 29, 2018. The BLM is currently analyzing comments received and working with the Corps on preliminary analysis of the alternatives.</p>	T.15S., R.7W., section 26	Notice of Intent expected in May 2021.	Joshua M. Carnahan jcarnaha@blm.gov (541) 683-6983

Northwest Oregon District Planning Update – Winter-Spring 2021

Vegetation Management Actions			
FY 2021 Timber Sales: The current status of Tillamook’s timber sales are described in Table 7: The Sentinel and Klutch Play			
<u>North Yamhill River Timber Management Project (DOI-BLM-ORWA-N040-2018-0006-EA):</u> The Field Office analyzed the effects of conducting commercial harvest on approximately 1,800 acres of land allocated to the Harvest Land Base and Riparian Reserve within the Upper North Yamhill subwatershed. A FONSI was signed in August of 2019.	Upper North Yamhill River 6th field subwatershed	A Decision for the third timber sale under the North Yamhill River Timber Management Project is expected in March 2021. The timber sale is expected to be auctioned in May 2021.	Andy Pampush apampush@blm.gov (503) 815-1143
<u>Coast Creek Timber Management Project (DOI-BLM-ORWA-N040-2020-0001-EA):</u> The Tillamook Field Office has completed environmental analyses for the Coast Creek Timber Management Project which includes regeneration harvest and commercial thinning in the Harvest Land Base - Moderate Intensity Timber Area, thinning within the Riparian Reserve land use allocation, and road construction and maintenance including the replacement of several fish passage culverts. The timber management project includes approximately 1,015 acres and would result in multiple timber sales. A FONSI was signed in October of 2020.	Coast Creek subwatershed of the Willamina Creek 5th field watershed, Yamhill County, Oregon	The first timber sale from the Coast Creek Project is expected in February 2022.	Andy Pampush apampush@blm.gov (503) 815-1143
<u>Upper Willamina Forest Management Project:</u> The Tillamook Field Office is in the preliminary planning stages of exploring a timber management project on 2,000-2,800 acres of HLB, LSR, and RR lands in the Upper Willamina Creek and Coast Creek drainages of the Willamina Creek Watershed. Treatments being considered range from restoration thinning on LSR and RR lands to commercial thinning and regeneration harvest on HLB lands. Associated actions include but are not limited to road construction and renovation, culvert installation and replacement, snag creation, riparian tree felling, etc.	Upper Willamina Creek and Coast Creek subwatersheds of the Willamina Creek watershed, Yamhill County, Oregon	Preliminary project consideration is ongoing. Scoping is expected in February/March 2021.	Andy Pampush apampush@blm.gov (503) 815-1143
Miscellaneous Land Use Requests			
Process Requests (EA/CX/DNA): For various land uses such as rights-of-way, tailholds, and special use permits.	Tillamook Field Office-wide	Ongoing	Andy Pampush apampush@blm.gov (503) 815-1143

Vegetation Management Actions			
Fiscal Year 2021 Timber Sale: The current status of Upper Willamette’s timber sales is described in Table 8: Buckshot, Happy Trails, and Crooked Roller.			
<u>Shotcash Timber Sale EA (DOI-BLM-ORWA-N050-2018-0011-EA)</u> : This project proposes to implement commercial thinning and regeneration harvest within a study area of 1,300 acres north of Springfield, Oregon. The study area is also within the Shotgun OHV Extensive Recreation Management Area. The project would include culvert replacements, new culvert installations, road renovation, road construction, road decommissioning, fuels treatments, snag creation, temporary OHV trail closures, and OHV trail restoration.	T.15S., R.1W., section 31; T.15S., R.2W., sections 15, 21, 22, 23, 25, 26, 28, and 36	EA Completed – FONSI signed August 10, 2020.	Maria Vasquez mlvasquez@blm.gov (541) 683-6133
<u>King Mosby Forest Management (DOI-BLM-ORWA-N050-2019-0002-EA)</u> : This project analyzes commercial harvest alternatives on approximately 1,500 acres in the HLB-LITA and HLB-MITA. The project would include regeneration and/or commercial thinning harvest, road work, culvert/drainage improvements, fuels treatments, snag creation, and reforestation.	T.21S., R.2W., sections 17, 21, 22, 25, 27, 29, 32, 33 and 35; T.22S., R.2W., sections 3 and 5	EA Completed - FONSI signed May 27, 2020.	Maria Vasquez mlvasquez@blm.gov (541) 683-6133
<u>Marcola Sunrise EA (DOI-BLM-ORWA-N050-0007-EA)</u> : The Upper Willamette Field Office (FO) is proposing to prepare a Programmatic Environmental Assessment to plan for both regeneration harvest and commercial thinning within the Marcola Sunrise project area.	T.16S., R.1E., Sections 7, 21, 29, and 31; T.16S., R.1W., sections 11, 13, 15, 17, 17, 21, 23, 25, 27, 29, 33, and 35; T.16S., R.2W., section 25; T.17S., R.2W., section 13; and T.17S., R.1W., sections 1, 3, 5, 9, 11, 15, 17, and 19	Public comment period will be held in February. FONSI expected to be signed in February/March.	Matt Buss mjbuss@blm.gov (541) 683-6453
<u>Thurston Hills Non-Motorized Trails and Forest Management Environmental Assessment EA (DOI-BLM-ORWA-N050-2017-0006-EA)</u> : The project includes 109-acres of regeneration harvest and 8.5 miles of hiking and biking trails within BLM’s Willamalane Extensive Recreation Management Area. Other project components include road work, culvert/drainage improvements, fuels treatments, snag creation, and reforestation.	T.18S., R.2W., Section 1; T.18S., R.1W., section 5; and T.17S., R.1W., section 31	Decision signed May 18, 2020. Awaiting court opinion to <i>Case 6:20-cv-01395-MK Cascadia Wildlands et al. v. United States Bureau of Land Management.</i>	Maria Vasquez mlvasquez@blm.gov (541) 683-6133

Northwest Oregon District Planning Update – Winter-Spring 2021

Post Fire Restoration and Salvage			
<p><u>Holiday Farm Fire Post-Fire Emergency Stabilization and Rehabilitation (ESR) CX (DOI-BLM-ORWA-N050-2021-0001-CX)</u>: The Upper Willamette Field Office has prepared a post-fire emergency stabilization program of work to accomplish stabilizing and rehabilitating areas affected by the Holiday Farm Fire and related wildfire suppression efforts. The ESR program of work includes: erosion control and sediment transport, fell hazard trees, and stabilize boulders, road decommissioning and closing other infrastructure, site preparation and reforestation, and Burned Area Emergency Response (BAER) Plan Treatments. Per the BLM categorical exclusion 516 DM 2 Appendix 1, 1.13 Post-fire rehabilitation activities will not exceed 4,200 acres, shall not include the use of herbicides or pesticides or the construction of new permanent roads or other new permanent infrastructure; and shall be completed within three years following a wildland fire.</p>	<p>The Holiday Farm Fire BLM footprint (see page 111 of the Holiday Farm Fire BAER Report (https://eplanning.blm.gov/public_projects/2003346/200394302/20029745/250035944/Attachment.A.HolidayBAERPlan.2020.pdf))</p>	<p>Decision signed November 17, 2020.</p>	<p>Emily Erwin eerwin@blm.gov (541) 683-6439</p>
<p><u>Holiday Farm Fire ESR Roadside Hazard Tree Removal (DOI-BLM-ORWA-N050-2021-0007-CX)</u>: The Upper Willamette Field Office has prepared a post-fire emergency stabilization and rehabilitation work to remove dead and/or dying trees which have been identified as a hazard to public safety. Work will be conducted in all land use allocation within the Holiday Farm Fire perimeter. Per the BLM categorical exclusion 516 DM 2 Appendix 1, 1.13 Post-fire rehabilitation activities will not exceed 4,200 acres, shall not include the use of herbicides or pesticides or the construction of new permanent roads or other new permanent infrastructure; and shall be completed within three years following a wildland fire.</p>	<p>The Holiday Farm Fire BLM footprint. (https://eplanning.blm.gov/projects/2009923/200475910/20035022/250041220/HazardTreeeCX_20210205.pdf)</p>	<p>Public Comment period ends February 26, 2021. Categorical exclusion expected to be signed in early March 2021.</p>	<p>Maria Vasquez mlvasquez@blm.gov (541) 683-6133</p>
<p><u>Wild and Woolly Salvage CX (DOI-BLM-ORWA-N050-2021-0003-CX)</u>: The Upper Willamette Field Office proposes to implement post-fire salvage of trees that were killed or damaged on Harvest Land Base – Moderate Intensity Timber Area (HLB-MITA) land use allocation as defined in the Northwestern and Coastal Oregon Record of Decision and Resource Management Plan (2016 ROD/RMP). The salvage would occur on 58 acres of the Wild and Woolly timber sale, which was actively being harvested prior to the Holiday Farm fire.</p>	<p>T.16S., R.2E., section 23</p>	<p>Completed.</p>	<p>Maria Vasquez mlvasquez@blm.gov (541) 683-6133</p>

Northwest Oregon District Planning Update – Winter-Spring 2021

<p><u>Mid Indian Timber Salvage CX (DOI-BLM-ORWA-N050-2021-0004-CX)</u>: The Upper Willamette Field Office proposes to implement post-fire salvage of trees that were killed or damaged on Harvest Land Base – Moderate Intensity Timber Area (HLB-MITA) land use allocation as defined in the Northwestern and Coastal Oregon Record of Decision and Resource Management Plan (2016 ROD/RMP). The salvage would occur on 116 acres of the Mid Indian timber sale, which was actively being harvested prior to the Holiday Farm fire.</p>	<p>T.16S., R.2E., section 21</p>	<p>Completed.</p>	<p>Maria Vasquez mlvasquez@blm.gov (541) 683-6133</p>
<p><u>HLB-MITA Salvage Project (No NEPA number yet)</u>: Up to 1,345 acres of salvage of dead/dying trees, and project actions are expected to include road work, construction, renovation, improvement, and decommissioning, slash reduction, site preparation, and reforestation. The Upper Willamette Field Office is still evaluating the appropriate NEPA vehicle to accomplish this task.</p>	<p>T.15S., R.2E., section 19; T.16S., R.1W., section 13; T.16S., R.1E., sections 13, 21, 23, 25, 29, 33, and 35; T.16S., R.2E., sections 17, 19, 20, 21, 23, 24, 27, 29, 30, and 33; T.17S., R.2E., sections 3, 4, 5, 7, and 9</p>	<p>Project preparation and planning.</p>	<p>Linda Wright lwright@blm.gov (541) 683-6469</p>
Miscellaneous Land Use Requests			
<p><u>Process Requests (EA/CX/DNA)</u>: For various land uses such as rights-of-way, tailholds, and special use permits.</p>	<p>Upper Willamette Field Office-wide</p>	<p>Ongoing.</p>	<p>Maria Vasquez mlvasquez@blm.gov (541) 683-6133</p>
Restoration Actions			
<p><u>Upper Willamette Aquatic Restoration DNA (DOI-BLM-ORWA-N050-2020-0011-DNA)</u>: Tiering to the Northwest Oregon District Aquatic Restoration EA for road decommissioning, pavement, and instream habitat restoration. Tiering to the Northwest Oregon District Aquatic Restoration EA for road decommissioning, pavement, and instream habitat restoration.</p>	<p>Instream Habitat Restoration: T.15S., R.1W., sections 19, 30-32 Road Restoration: T.21S., R.2W., sections 25, 29; T.22S., R.02W., sections 1, 2; T.16S., R.1W., section 15 Smith Creek Road Paving: T.21S., R.2W., section 1</p>	<p>Decision Record signed June 17, 2020.</p>	<p>Steve Liebhardt sliebhardt@blm.gov (541) 683-6454</p>
<p><u>Upper Willamette Prairie and Savanna DNA (DOI-BLM-ORWA-N050-2020-0009-DNA)</u>: Proposing to tier to the Integrated Invasive Plant Management for Northwest Oregon District (DOI-BLM-ORWA-N000-2018-0002-EA) to restore 41 acres of prairie and savanna lands in three ACECs (Areas of Critical Environmental Concern) in the Upper Willamette Field Office</p>	<p>T.14S., R.2W., sections 29, 33; T.16S., R.3W., section 13; T.20S., R.2W., section 32</p>	<p>Decision Record signed November 9, 2020.</p>	<p>Kan Dhillon kdhillon@blm.gov (541) 683-6170</p>

Vegetation Management Actions			
<u>Integrated Pest Management for Tyrrell and Horning Seed Orchards EA (DOI-BLM-ORWA-N000-2019-0005-EA)</u> : Proposed project to improve BLM’s ability to manage the Tyrrell and Horning Seed Orchards for the purposes for which the BLM constructed them (USDI 2016d:56). BLM manages the Tyrrell and Horning Seed Orchards to grow high-quality seed for reforestation and restoration efforts of non-BLM cooperators and all of western Oregon BLM-administered lands. To effectively manage the sites, BLM must manage competing and unwanted vegetation, diseases, insects, and animal pests. Proposed project will expand upon current integrated pest management (IPM) program so BLM can meet increased seed demand (due to closure of Medford District seed orchards) more effectively and efficiently and update the IPM program to respond to label changes and new pests.	Horning and Tyrrell Seed Orchards	FONSI and Decision Record signed November 9, 2020.	Paula Feldmeier pfeldmeier@blm.gov (503) 315-5973
<u>Tyrrell Seed Orchard FY 2021- FY 2023 IPM DNA (DOI-BLM-ORWA-N030-2021-0003-DNA)</u> : Implement integrated pest management (IPM) activities such as, insecticide and herbicide applications, planting, tilling, pruning, dead and dying tree removal, roguing, pile burning, stump grinding, mowing, fertilization, thinning, orchard establishment, and cone collection within the 832.5-acre Tyrrell Seed Orchard boundary in fiscal years 2021 and 2022.	Tyrrell Seed Orchard; T.20S., R.5W., sections 9, 15, 21 of the Willamette Meridian	DNA Public Review March 2021 with a Decision in late Spring 2021.	Paula Feldmeier pfeldmeier@blm.gov (503) 315-5973
<u>Horning Seed Orchard 2021-2022 Integrated Pest Management (IPM) DNA (DOI-BLM-ORWA-N010-2021-0008-DNA)</u> : Implement integrated pest management (IPM) activities, such as insecticide and herbicide applications, fertilization, and associated limitations, protections, within the seed orchard boundary (760 acres) in calendar years 2021-2022.	Horning Seed Orchard, T. 4S, R. 3E, Sections 13 and 23, Willamette Meridian	Decision in late Spring 2021.	Paula Feldmeier pfeldmeier@blm.gov (503) 315-5973
<u>2021 Northwest Oregon District Annual Treatment Plan for Invasive Plant Management/ Integrated Invasive Plant Management Treatments DNA (No NEPA number yet)</u> : In accordance with direction in the <i>Decision Record and Integrated Invasive Plant Management for the Northwest Oregon District Environmental Assessment (EA)</i> , the Northwest Oregon District BLM has proposed the 2021 Annual Treatment Plan (ATP) for invasive plant management. The treatment methods identified in this ATP include manual, mechanical, targeted grazing, competitive revegetation treatment methods, the application of one or more herbicides, or a combination of treatment methods.	BLM lands across all five Field Offices of the Northwest Oregon District	Ongoing, DNA Public Review Spring 2021.	Emily Erwin eerwin@blm.gov (541) 683-6439
