

## Ignite Your Natural Curiosity

Imagine the discoveries you will make as you explore Alaska's natural world. The Campbell Creek Science Center's dynamic outdoor programs spark curiosity and build connections with nature for people of all ages.

The Campbell Creek Science Center is the perfect outdoor classroom where learning and science come to life. Here, everyone is a scientist. Let us guide your journey.

### The Campbell Creek Science Center offers:

- Place-based science field trips for preschool and K-12 students, and adults. Programs are customizable to your schedule and group.
- Team building and outdoor skills programs for all learners.
- Scout, 4-H, and afterschool programs.
- Professional development in natural resources and education.
- Volunteer opportunities in science, stewardship, and education.
- Regularly scheduled public lectures, classes, and nature walks for toddlers, children, adults, and families.
- Twelve miles of public trails along the creeks, forests, and meadows of Campbell Tract.

The Bureau of Land Management's mission is to sustain the health, diversity, and productivity of public lands for the use and enjoyment of present and future generations.

The Campbell Creek Science Center engages all learners in outdoor experiences that increase appreciation, connection, and stewardship of Alaska's public lands and natural resources.

Call the Campbell Creek Science Center at 907-267-1247 to schedule your visit today. A full list of available field trips and the events calendar are available at [www.blm.gov/ccsc](http://www.blm.gov/ccsc).

Here, everyone is a scientist.

## The Perfect Field Trip

Field trips give preschool and K-12 students hands-on, minds-on experiences with science and the natural world. Educators can choose from our standard programs on topics such as creek and forest studies, earth science, ecology, outdoor skills, and team building. Programs combine outdoor experiences with state and national education standards. They can also be customized to meet the needs of your group.

Our science educators are experienced outdoor leaders. We practice inclusive education techniques to ensure all students are fully immersed in learning and growing together.

**Welcome to your outdoor classroom. Here, everyone is a scientist. Let us guide your journey.**

## Adult and Professional Learning

Enhance your professional and naturalist skills at the Campbell Creek Science Center. We offer programs that open your eyes to the wonders of nature, no matter your background or age. Attend a class where you will gain insights into Alaska's dynamic landscapes or learn professional techniques to present interpretive information to diverse audiences. We also offer guided team building programs where your team will bond, have fun, and come back refreshed and prepared to solve any challenge.

## Facility Rental

The Campbell Creek Science Center is available to rent for activities that align with our mission, such as education, science, natural resources, and outdoor recreation. We offer a fully accessible facility, meeting rooms, and a professional kitchen. Contact us for more information.
