#### **KASHA-KATUWE TENT ROCKS RESOURCE MANAGEMENT PLAN EIS 2007**

- RMP Management actions expected to stabilize at 50,000 visitors annually
- Reservation system implemented at the Monument
- Overall goal is to help manage resources more sustainably and to provide a more positive visitor experience.

#### **CURRENT VISITATION & FEE STRUCTURE**

- Current Visitation average 110,856
  - The past government shutdowns and COVID closures have decreased this average. A more representative average per year is approximately 127,000
- Open 350 days a year, 15 closure days as coordinated with Pueblo de Cochiti days of significance
- Current Fee Structure per vehicle
  - \$2 motorcycles and bicycles
  - \$5 per vehicle with 1-8 passengers
  - \$25 per vehicle with 9-25 passengers
  - \$100 per vehicle with 26+ passengers
- America the Beautiful Interagency Passes
  - America the Beautiful Passes are accepted and sold at the Monument
  - America the Beautiful Passes make up approximately 32% of entries into the Monument

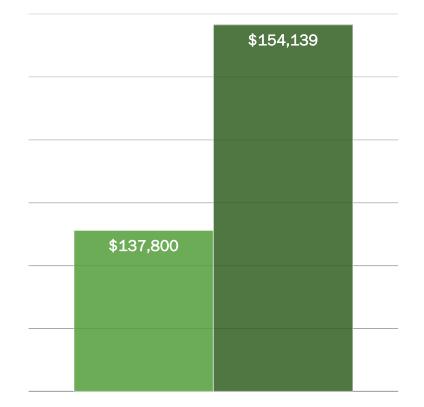

#### EDUCATIONAL FIELD TRIP PROGRAM

- Educational Groups are free with a reservation.
- Elementary through Collage age students.
- Groups from all over New Mexico, the Nation, and even worldwide come to study the unique geology.
- Annual average of 2,288 visitors through the Educational Field Trip Program.

Collections (L1232) & Expenses Comparison (Annual Average 5 years)

Collections Expenses

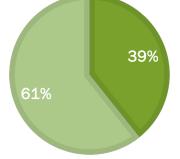

## AVERAGE ANNUAL LABOR & OPERATING COSTS OVER 5 YEARS

■ Labor Costs ■ Operating Costs

Average Annual Expenditures for 5
years (Fiscal Years 2016-2020)

Labor Costs	\$160,504.91
Operating Costs	\$248,009.85
Total Average Expenditures	\$408,514

## WHY ARE WE PROPOSING TO INCREASE FEES?

- A change in fees at the Monument may have impacts to the public.
- However, the fee increase would overall benefit the Monument and its visitors.
- A fee increase is needed to continue to provide high quality services and amenities.
- Inflation continues to rise and has risen 73.17% over the past 25 years.

## PROPOSED FEE STRUCTURE MODIFICATION

Structure by annual visitation ranges	50,000 visitors	75,000 visitors
Current (\$5/vehicle) up to 8 visitors	\$57,800	\$85,000
\$5 per person	\$170,000	\$255,000

Fee Revenue considers 32% of visitors utilize the America the Beautiful Pass which allows free entry for four total visitors.

#### IMPACTS OF MODIFYING FEE STRUCTURE

Impacts from changing fees include:

- Generation of revenue to be used for labor and operational needs.
- Ensure adequate staff to halt resource damage and provide the level of service the public has come to expect.
- Improve recreational opportunities and the quality of the experience and public satisfaction for visitors.
- Ability to continue operations despite potential increase of costs of goods, labor, and/or services.
- Perceived fee equality with private, comparable recreation sites.
- Greater self-sufficiency for management of the recreation site.
- Preparation for the potential increase of costs of goods, labor, and/or services.
- Return visitors may find it off putting that they are now required to pay a higher fee with the change to per person.
- Socio-economic impacts to low-income or minority populations are unknown at this time. Some impacts could be expected with any fee.

#### IMPACTS FROM NOT MODIFYING FEE STRUCTURE

Impacts from not changing fees include:

- Loss of potential revenue in L1232 funds to augment funds for labor and operational costs.
- Potential environmental degradation of resources in the monument.
- Potential degradation of recreation experience and public satisfaction for current and new visitors with less funding available for aging facilities and not enough personnel to work the area.
- Costs of goods, labor, and services increase at a faster rate than fee revenue projections.
- Socio-economic impacts to low-income or minority populations would be favorable because there would be a per vehicle fee.

## CONCLUSION

Kasha-Katuwe Tent Rocks National Monument is a gem of New Mexico in need of adjusting its fee structure.

- No change in fees for 25 years.
- Inflation impacts are becoming noticeable.
- We wish to provide the stellar services and beyond!
