

WYOMING

Newcastle Field Office

Recreation Fee Program Spending & Accomplishment Highlights 2021

Frannie Peak Trails Construction

Frannie Peak

Over the next three years, the Newcastle Field Office partnered with Montana Conservation Corps (MCCC) to build trails in the Frannie Peak area. MCC is an organization that strives to work with communities and underserved youth. Through the BLM's partnership with MCC, the community of Newcastle will receive increased opportunities for non-motorized recreation and economic benefits. The MCC trail crew will gain valuable experience working on America's public lands while fostering a sense of stewardship and land ethic. \$11,000

Recreation Fee Dollars

Recreation fee dollars are an investment in outdoor recreation. Current and future generations benefit as 100% of the funds collected are reinvested in the facilities and services that visitors enjoy, use, and value.

They support and enhance:

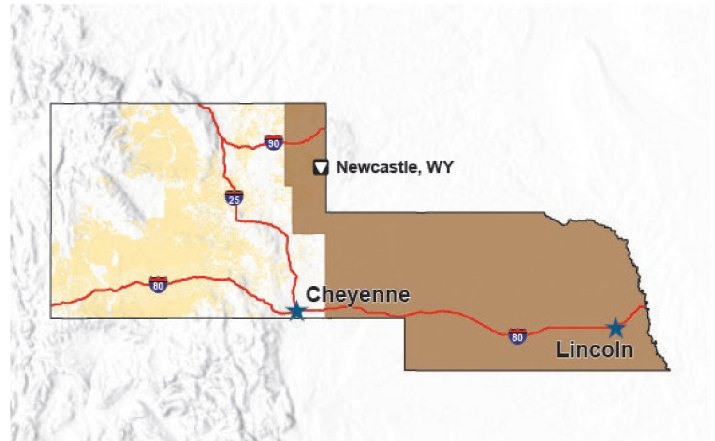

- Maintenance, repair, and facility enhancement related directly to visitor enjoyment, visitor access, and health and safety
- Interpretation, visitor information, visitor service, visitor needs assessments, and signs
- Habitat restoration directly related to wildlife- dependent recreation that is limited to hunting, fishing, wildlife observation, or photography
- Law enforcement related to public use and recreation.
- Direct operating or capital costs associated with the recreation fee program

Other Accomplishments

No other expenditures from Fee Program. For the MCC partnership, the Newcastle Field Office will use future Fee Program funds in FY22 and FY23.

FY22 Projected Revenue	\$0.00

Connecting with Communities

Over the next three years, the Newcastle Field Office partnered with the Montana Conservation Corps to build hiking and biking trails in the Frannie Peak Trails area. The Montana Conservation Corps is an organization that strives to work with communities and underserved youth. Through the BLM’s partnership with MCC, the community of Newcastle will receive increased opportunities for non-motorized recreation and economic benefits. The MCC trail crew will gain valuable experience working on America’s public lands while fostering a sense of stewardship and land ethic. This project, so close to the community of Newcastle, will facilitate greater well-being among residents.
