

Dec. 22, 2021

Dear Mr. Badford,

Thanks for the opportunity to provide input on the mining in Minnesota.

I send a heartfelt plea that the moratorium be put in place and these type of projects be abandoned and outlawed in our beautiful state.

As a small farmer, the last years have taken a toll on my well, my income and my well-being.

I believe these large foreign-owned, multi-national corporations have done enough damage to the planet.

We must stand on the right side of history, for the good of our children and grand-children.

Please use your power to put our planet before profit. Our lives depend on you.

Sincerely, Darlene D. Haus
