Dear Mr. Radford

Re: Superior National Forest Withdrawal Application

I am now 84. My wife and I have saved canoe trips in the BWAA for 50 years. We support protection of the canoe country waters from the danger of sulfide mining. We agree with former governors Anne Carlson and Mark Dayton and Vice President Walter Mondale that the Twin Metals copper mine cannot operate safely so close to the BWAA.

We hope that your office and federal regulators will agree with us. Thank you for your careful consideration.

Sincerely,

Frederick and Ed Winston
