

Sequence of wildflower flowering at Ontario, Oregon

Clint Shock, Erik Feibert, and Alicia Rivera, OSU, 12 May, 2016

Flowering dates of wildflower species at and around the Oregon State University Malheur Experiment Station, Ontario, OR between 2005 and 2015.

Species	Common names	Flowering dates*
<i>Lomatium grayi</i>	Gray's biscuitroot	L.** March to E. May
<i>Microsteris gracilis</i>	Slender phlox	L. March to E. May
<i>Lomatium nudicaule</i>	Bare-stem desert parsley	April to May
<i>Cymopterus bipinnatus</i>	Hayden's cymopterus	April to May
<i>Lomatium dissectum</i>	Fernleaf biscuitroot	April to E. May
<i>Ribes aureum</i>	Golden currant	April to E. May
<i>Penstemon acuminatus</i>	Sharpleaf penstemon	L. April to E. June
<i>Penstemon pachyphyllus</i>	Thickleaf beardtongue	L. April to E. June
<i>Lomatium triternatum</i>	Nineleaf biscuitroot	April to E. June
<i>Lomatium suksdorfii</i>	Suksdorf's desert parsley	L. April to E. June
<i>Cleome platycarpa</i>***	Golden beeplant	April to May
<i>Balsamorhiza sagittata</i>	Arrowleaf balsamroot	April to May
<i>Ipomopsis aggregata</i>	Scarlet gilia	L. April to July
<i>Thelypodium milleflorum</i>	Manyflower thelypody	L. April-mid June
<i>Cleome lutea</i>	Yellow beeplant	May to July
<i>Crepis intermedia</i>	Limestone hawksbeard	May to June
<i>Astragalus filipes</i>	Basalt milkvetch	L. April to June
<i>Phacelia linearis</i>	Threadleaf phacelia	E. May to L. June
<i>Phacelia hastata</i>	Silverleaf phacelia	May to July
<i>Eriogonum heracleoides</i>	Parsnip-flowered buckwheat	May to June
<i>Enceliopsis nudicaulis</i>	Nakedstem sunray	May to August
<i>Heliomeris multiflora</i>	Showy goldeneye	L. May to August
<i>Penstemon speciosus</i>	Royal penstemon	May to June
<i>Penstemon cyaneus</i>	Blue penstemon	May to June
<i>Penstemon deustus</i>	Scabland or hotrock penstemon	May to E. July
<i>Sphaeralcea parvifolia</i>	Smallflower globemallow	May to June
<i>Sphaeralcea grossulariifolia</i>	Gooseberryleaf globemallow	May to June
<i>Sphaeralcea coccinea</i>	Scarlet globemallow	May to June
<i>Dalea ornata</i>	Western prairie clover	May to June
<i>Dalea searsiae</i>	Searls' prairie clover	May to June
<i>Eriogonum umbellatum</i>	Sulphur-flower buckwheat	L. May to July
<i>Chaenactis douglasii</i>	Douglas' dustymaiden	May to July
<i>Cleome serrulata</i>	Rocky mountain beeplant	June to August
<i>Monardella odoratissima</i>	Monardella	July to August
<i>Machaeranthera canescens</i>	Hoary tansyaster	Mid-Aug to L. Sept.
<i>Ericameria nauseosa</i>	Gray rabbitbrush	August to Sept.
<i>Chrysothamnus viscidiflorus</i>	Green rabbitbrush	August to Sept.

*Varies with the year and location. **E = Early, L = Late. ***We have observed that the flowers with names in bold support many species of pollinators here.
