Bureau of Land Management

# RESTORATION LANDSCAPE

# Yanawant

Fuels reduction and seeding of native forbs and grasses helps reduce chances of catastrophic wildfire.

The Bureau of Land Management is infusing \$161 million for ecosystem restoration and resilience on the nation's public lands, as part of the Biden-Harris Administration's Investing in America agenda. The proposed work will focus on 21 "Restoration Landscapes" across 11 western states, restoring public lands, strengthening communities and local economies, advancing climate resilience and furthering our commitment to Tribal collaboration and partnership.

The Yanawant landscape includes lands directly north of the Grand Canyon, rich with diverse habitat, from desert scrub to ponderosa forests. Restoration investments will build a more resilient landscape by restoring habitat for threatened and endangered species, improving drought resilience and ecosystem health, and reducing fuel loads and wildfire risk by removing noxious and invasive species and eliminating encroaching conifers. Restoring native grasses will create cover and connectivity for wildlife and stabilize soils, helping to improve and sustain the watershed's overall function.

This effort will complement \$5.41 million of funding from the Bipartisan Infrastructure Law.

Treatments like this breaks up continuity of hazardous fuels reducing chances for catastrophic wildfire.

## Restoration Features

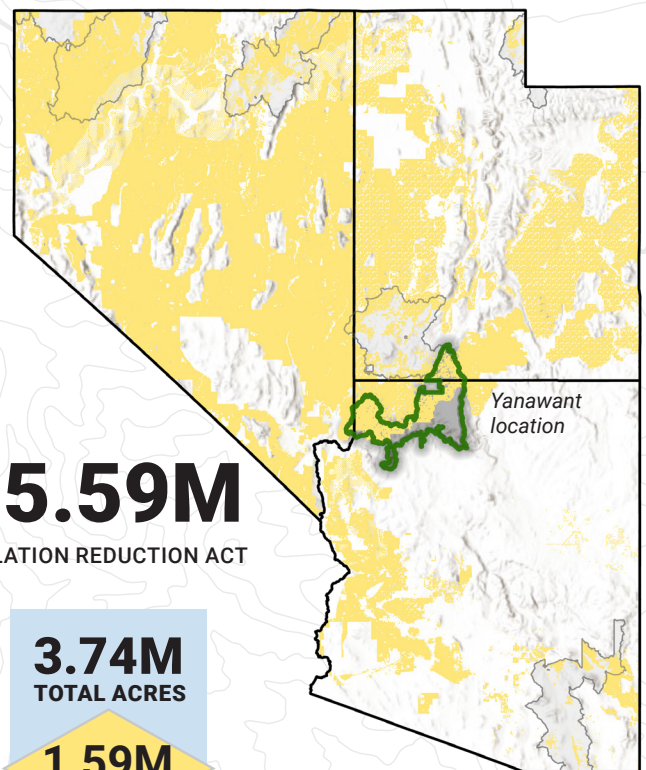

Create Climate Resilience

Conduct Fire/Fuels Treatments

Protect native plants & remove invasive species
