Dear BLM,

We strongly oppose the leasing of any more land around Lake Lewisville, whos Dam is listed as "in Danger." Please Recmsider this disastrous plan to drill near our water supply for the City of Dallas and surrounding area. Please take time to allow for the residents of this community to understand what a horrible ~~decision~~ decision this will be. We want clean water and air and to protect our endangered Dam. from flooding the homes of about 450,000 Residents. Not a good move folks.

Thanks

Terrie Jones
