February 17, 2016

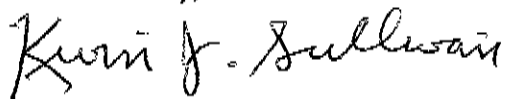

To: The Bureau of Land Management New Mexico Office,

I have been a resident of Carrollton, Texas for almost 30 years and live directly south of Lake Lewisville. I was recently surprised and concerned over the report stating the safety of the dam and the possibility of it breaching. And now someone is considering drilling there as well?

This is outrageous and unacceptable to even consider such a proposal. This is jeopardizing our drinking water. Haven't we learned our lesson from the recent disaster in Flint, Michigan.

For once the safety and lives of the majority should prevail over big business and greedy individuals who will do anything to make a buck! Any risk to a regions water supply is not worth it.

Sincerely,

A handwritten signature in black ink that reads "Kevin J. Sullivan". The signature is written in a cursive, flowing style.

Kevin J. Sullivan
