Re: Protest Natural Gas Drilling of Properties near Lewisville Lake

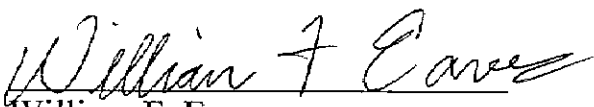

To Whom It May Concern:

This letter is a statement of my opposition to Natural Gas Drilling near Lewisville Lake. I live in Highland Village, very near the proposed BLM auction in New Mexico, with the proposed US Army Corp of Engineers property including 250 acres on the Hickory Creek side of Lewisville Lake.

Reasons for my protest include, but are not limited to, the possible contamination of drinking water, such as those occurring in Flint, Michigan; geological changes that have resulted in unprecedented earthquakes in areas such as Irving, Texas; and the potential for damage to the already precarious Lewisville Lake Dam, the collapse of which could cause catastrophic flooding and loss of life in the entire Trinity River corridor.

I respectfully submit this protest for placement with other filed protests and in the public record as appropriate.

Sincerely,

  
William F. Eaves
