

February 15, 2016

Dear Ms. Lueders:

I am filing this Protest of the Bureau of Land Management's (BLM) planned April 20, 2016 oil and gas lease sale and Environmental Assessment DOI-BLM-NM-040-2015-61-EA, pursuant to 43 C.F.R. § 3120.1-3.

I formally protest the inclusion of the following parcel, NM- 201603-43, covering a total of 258.9 acres. The proposed parcel is on/adjacent to Lewisville Lake.

I am filing this protest on behalf of my family. My name is Jaret Lehman and I live at 8116 Montecito Dr., Denton, Tx, 76210 and I can be reached at 214-598-4663. My email is jaret_lehman@hotmail.com.

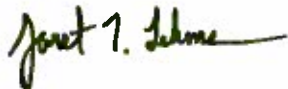

I am a land owner in Denton, TX and my family (including two young boys) get our drinking water from Lake Lewisville.

The reason I feel I am an affected party by the auction of the 10-year mineral lease on the property is due to the following [concerns]:

- 1) Highland Village, Denton, and other neighboring cities obtain its drinking water supply from Lake Lewisville and public water wells near the lake. I am worried about the contamination of our drinking water through possible drilling runoff from the site. The possible migration of contaminants through our aquifers could also impair our public water wells.
- 2) I am also concerned about the potential for increased seismicity from added drilling in and around Lake Lewisville. The Lewisville dam is currently under repair after a 161-foot long, 23-foot wide slide on an earthen embankment this past spring. Additional drilling or the migration of drilling fluids along existing fault areas below the lake could negatively impact the integrity of the dam's infrastructure.
- 3) Air Quality in Denton is already rated as having a serious problem by the EPA. Increased drilling activity will only make this problem worse.

The Environmental Assessment for this proposed lease sale is substantially and procedurally flawed. There was no analysis of how drilling, fracking, or wastewater injection could impact the Woodbine, Trinity or Paluxy aquifers in relation to this parcel. The EA does not address the soils or the geology regarding this Lake Lewisville parcel along with other important issues. Therefore, BLM's offer of this parcel is unlawful as it fails to sufficiently address the above issues as required by the National Environmental Protection Act (NEPA). Please pull this parcel from the April 20 auction. Do not put my family's water, health, and well-being at risk.

Sincerely,

Jaret T. Lehman
