Dear Bureau of Land Management,

I am writing this letter to protest the lease of mineral rights under Lewisville Lake in Hickory Creek, TX. It is the 258.9-acres of land parcel NM- 201603-43. I am filing this protest on behalf of my family and myself. My name is William Cook and I live in McKinney, TX.

~~The increase in air pollution during the Summer Dallas-Fort Worth area~~
cause an increase in air pollution. During the Summer Dallas-Fort Worth area counties consistently have red or orange level ozone alerts, which mean the air is unhealthy to breath. There are numerous wells drilling the Barnett Shale throughout DFW that are constantly leaking methane and other toxic fumes. Adding to this total will cause more health problems to the citizens.

My mother lives in Lewisville, which already has putrid smelling air, and she will be directly affected by the increased output of air pollutants. The potential economic growth of this project is not worth the guaranteed environmental destruction and increase in air pollution. Please consider removing this land from the auction to be held on April 20, 2017.

Sincerely,

William Cook
