Subject: NM-201604-043, Denton County, TX Lake Lewisville Project

The impending auction of the referenced oil/gas lease under Lake Lewisville, Denton County, Texas is a grave concern due to the fact that Lake Lewisville is one of the top lakes in the US in dire need of repairs. The current issues with the dam and the downstream consequences of a dam failure would be catastrophic. This has been discussed recently by mayors of cities both around the lake and downstream of the lake. Fracking and earthquakes are already an issue in Denton County.

Lake Lewisville is also a recreational lake, with many, many homes surrounding it. To spoil the beauty, endanger the recreational aspects and devalue surrounding property with the unsightly equipment and noise associated with oil/gas drilling will be a travesty. My children and I live in communities around the lake, and we are very concerned by this potential move by the Bureau of Land Management.

Please consider this to be my formal protest to the auction of this parcel.

Sincerely yours,

Rose M. Bayles
