

2/8/2016

I hope this informal letter will
get your attention - perhaps
more than a normal typed note.

Dear BLM,

I have just learned that you plan to
sell - on April 20 in Santa Fe - parcels
of land owned by the BLM in

North Texas.

I have further learned that
Thomson had services began
seeking the land on behalf of another
organization in 2014 - and will not
reveal the name of that organization.

This is bizarre and should be
illegal. The "bayer" can easily
poison our drinking water with
fracking fluids.
I am not sick!

Blaise B. West.
