2-14-16

My name is Virginia and I am writing to respectfully request that your company stop the dangerous practice of fracture hydraulics and specifically stop seeking lease privileges on Lake Lewisville and anywhere in or around directly the Denton County of Texas. The process as a whole is a terrible idea especially for a heavily populated area with our water reservoir at risk.

It is only a matter of time that the coincidence of earthquakes in a fracking site will be ultimately proven as the cause. Please leave our water clean and potable and our land intact.

The act of fracking ruins our water so badly for so long that it is altering our future and our children's children.

Stop this madness and stay away from Flower Mound.

Virginia Ring, resident
