Dear Sirs,

I live in Denton County TX
the town of Copper Canyon. I
very concerned over the proposed
April drilling of land near Las
Lewersville in my county.

I protest against any such
action on your part due to its
unknown impact & environmental
contamination to that area. In;
all ~~new~~ TX public land should
NOT be drilled or auctioned or
for ^{new} drilling as its impact is still
controversial. Regards

Robin Fleury
