Release # NM-201604-043 Denton County

I respectfully request confirmation of this communication to my email address.  
cyberhek@yahoo.com.

Although the financial benefits to this region are awesome if the land is leased I do not think or believe it is worth any small risk there is to the safety of our water supply or to the Lewisville Dam that has been rated as very dangerous.

I also do not want any possibility of contamination of the area for ecological impact to fish, fowl, or land.

I have only learned of this possibility recently. ~~so~~ I was not aware of the public review period in November 2015.

Sincerely and with deep concern

Lois Heckart
