Re: Protest – Lake Lewisville Area Land Lease for Drilling

To whom It may concern;

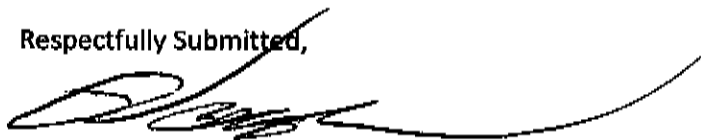

Please allow this to serve as a formal PROTEST against the leasing of the land in the area of Lake Lewisville for the purposes of drilling.

Of all the lands you could opt for, to drill and place at risk the drinking water supply to millions of individuals seems to be reckless at best.

Not to mention that the dam on Lake Lewisville has already been called into question of late by the Corp of Engineers.

For the Love of God and the millions of people that could / would be effected, do NOT proceed with this ill-conceived proposal.

Respectfully Submitted,

Russell (Rusty) Vaughn
