To whom it may concern;

I have been advised that there is to be an auction of drilling rights below Lewisville Lake on April 20th 2016. As a resident of Carrollton, Denton County, and directly impacted by the integrity of the Lewisville Dam, I wish to protest this auction.

Although the Special Update released by State Representative Ron Simmons, House District 65, indicates that the BLM has completed the required environmental impact study, this study did not access the safety and integrity of the dam itself.

I do not believe that the dam, as identified as the 8th most dangerous dam in the nation should be further endangered by drilling activity. The failure of this dam would be catastrophic and not worth the risk associated by any drilling activity.

Thank you for your consideration.
