Re: BLM to lease drilling rights under Lewisville Lake

To whom it may concern:

My home is located at 2208 Creek Crossing Drive, Corinth, Texas 76210-3606; it is located less than one mile from the northern most proposed drilling site. I protest the sale or lease of the proposed parcels for the following reasons:

1. Lake Lewisville serves as the primary drinking water reservoir for Dallas and much of North Texas. The area in which I live is a watershed district.
2. Contamination of Lake Lewisville by toxic, carcinogenic and/or neurotoxic chemicals used in the drilling and hydraulic fracturing processes would render Lake Lewisville water undrinkable with considerable negative consequences for the entire North Texas region.
3. The Lake Lewisville lease parcels are very close to developed residential communities that would be harmed by the non-stop heavy industrial process starting with pad site preparation and continuing through well completion without benefit to local residents and possible reductions of their real property values.
